bedford series in history and culture: *German Rocketeers in the Heart of Dixie* Monique Laney, 2015-01-01 This thought-provoking study by historian Monique Laney focuses on the U.S. government-assisted integration of German rocket specialists and their families into a small southern community at the end of World War II. In 1950, Wernher von Braun and his team of rocket experts relocated to Huntsville, Alabama, a town that would celebrate the team, despite their essential role in the Nazi war effort a decade earlier, for their contributions to the U.S. Army missile program and later to NASA's space program. Based on oral histories, provided by members of the African American and Jewish communities, the rocketeers' families, and co-workers, friends, and neighbors, Laney's book demonstrates how the histories of German Nazism and Jim Crow in the American South intertwine in narratives about the past. This is a critical reassessment of a singular time that links the Cold War, the "Space Race," and the Civil Rights era while addressing important issues of transnational science and technology, and asking Americans to consider their country's own history of racism when reflecting on the Nazi past.

bedford series in history and culture: The Soul of America Jon Meacham, 2019-04-30 #1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand

the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. "Gripping and inspiring, *The Soul of America* is Jon Meacham's declaration of his faith in America."—Newsday ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • A BEST BOOK OF THE YEAR: NPR, The Christian Science Monitor, Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the "better angels of our nature" have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D. Roosevelt, Harry S. Truman, Dwight Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women's rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson's crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back, to assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, "The good news is that we have come through such darkness before"—as, time and again, Lincoln's better angels have found a way to prevail.

bedford series in history and culture: Afro-Realisms and the Romances of Race Melissa Daniels-Rauterkus, 2020-04-15 Winner of the SAMLA Studies Award Honorable Mention for the MLA William Sanders Scarborough Prize From the 1880s to the early 1900s, a particularly turbulent period of U.S. race relations, the African American novel provided a powerful counternarrative to dominant and pejorative ideas about blackness. In *Afro-Realisms and the Romances of Race*, Melissa Daniels-Rauterkus uncovers how black and white writers experimented with innovative narrative strategies to revise static and stereotypical views of black identity and experience. In this provocative and challenging book, Daniels-Rauterkus contests the long-standing idea that African Americans did not write literary realism, along with the inverse misconception that white writers did not make important contributions to African American literature. Taking up key works by Charles W. Chesnutt, Frances E. W. Harper, Pauline Hopkins, William Dean Howells, and Mark Twain, Daniels-Rauterkus argues that authors blended realism with romance, often merging mimetic and melodramatic conventions to advocate on behalf of African Americans, challenge popular theories of racial identity, disrupt the expectations of the literary marketplace, and widen the possibilities for

black representation in fiction. Combining literary history with close textual analysis, Daniels-Rauterkus reads black and white writers alongside each other to demonstrate the reciprocal nature of literary production. Moving beyond discourses of racial authenticity and cultural property, Daniels-Rauterkus stresses the need to organize African American literature around black writers and their meditations on blackness, but she also proposes leaving space for nonblack writers whose use of comparable narrative strategies can facilitate reconsiderations of the complex social order that constitutes race in America. With *Afro-Realisms* and the *Romances of Race*, Daniels-Rauterkus expands critical understandings of American literary realism and African American literature by destabilizing the rigid binaries that too often define discussions of race, genre, and periodization.

bedford series in history and culture: *France and the Dreyfus Affair: A Documentary History* Michael Burns, 2019-08-09 The unjust conviction of French Jewish Captain Alfred Dreyfus on charges of treason started the Dreyfus affair, a major event in European anti-Semitism. "This documentary history is designed to introduce the broad outlines and significant legacies of the Dreyfus affair, from the captain's arrest in 1894 to the 1998 centennial of J'Accuse, Émile Zola's scathing indictment of the French military... This volume, fashioned for a weeklong assignment in a college course, reproduces the affair's most celebrated texts, as well as less familiar, but no less telling, documents. Presented as a chronological narrative, it charts Captain Dreyfus's case as it unfolded in time, and summarizes the major issues and debates that have survived for the past century." (From the preface by Michael Burns) "A fresh and compelling study of the turn of the century affair in a concise and readable book... A fine compilation of well-chosen documents and lucid analysis... Beyond making this frequently told tale come to life once again (I literally could not put the book down), Burns has given it historical and cultural context." — Donna F. Ryan, Gallaudet University "Michael Burns's volume is imaginatively written, with a keen eye to the drama and desperation of the Dreyfus affair. Its special strength is its learned attention to the political, military, and cultural contexts. Weaving the author's own commentary together with documents from the period, this volume is a splendid guide to one of the most important historical landmarks of our time." — Michael R. Marrus, University of Toronto "In both his analysis and his choice of documents, Michael Burns has brilliantly captured all the complexity and the passion of the Dreyfus affair. I salute his achievement." — Benjamin F. Martin, Louisiana State University
