The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. It isn't surprising that a locale nicknamed the Constitution State has an impressive history—all of which is documented in the WPA Guide to Connecticut. The guide provides a comprehensive index of old and historic houses as well as an interesting timeline called "Connecticut Firsts" which lists historic happenings in the state from 1636 to 1936. The guide to the Nutmeg State also presents a number of tours through notable cities and towns, including New Haven and Yale University.
