bible verses in hindi language: Colonialism and Knowledge in Grierson's Linguistic Survey of India Javed Majeed, 2018-08-31 This book is the first detailed examination of George Abraham Grierson's Linguistic Survey of India, one of the most complete sources on South Asian languages. It shows that the Survey was characterised by a composite and collaborative mode of producing knowledge, which undermines any clear distinctions between European orientalist and colonised Indians in British India. Its authority lay more in its stress on the provisional nature of its findings, an emphasis on the approximate nature of its results, and a strong sense of its own shortcomings and inadequacies, rather than in any expression of mastery over India's languages. The book argues that the Survey brings to light a different kind of colonial knowledge, whose relationship to power was much more ambiguous than has hitherto been assumed for colonial projects in modern India. It also highlights the contribution of Indians to the creation of colonial knowledge about South Asia as a linguistic region. Indians were important collaborators and participants in the Survey, and they helped to create the monumental knowledge of India as a linguistic region which is embodied in the Survey. This volume, like its companion volume Nation and Region in Grierson's Linguistic Survey of India, will be a great resource for scholars and researchers of linguistics, language and literature,

history, political studies, cultural studies and South Asian studies.

bible verses in hindi language: Finding a Place Kris Rampersad, 2002 Kris Rampersad's book takes an intimate look at the blossoming of Trinidad's literary consciousness. Through the eyes and the words of the writers, she maps their contribution to Indo Trinidadian literature from those evolutionary years in 1850, to it flowering in the 1950s. It also represents a close look at the exciting oral culture of these people as depicted by their music, dance and storytelling, and examines the biographies of the main figures who contributed to social, cultural, economic and political development throughout this period. While the main focus of the work is on language and literary development, other aspects of Trinidad's development are also explored - cross-culturation, politics, race relations, social mobility and women's issues - in relation to their influence and impact on the writings. Further, the raw material of *Finding A Place* (12 little-known and rare publications between 1850 and 1950) introduces a new set of data through which the evolution of Trinidad and Tobago can be examined by others.

bible verses in hindi language: Believing Without Belonging? Vinod John, 2020-11-19 This study examines an indigenous phenomenon of the Hindu devotees of Jesus Christ and their response to the gospel through an empirical case study conducted in Varanasi, India. It analyzes their religious beliefs and social belonging and addresses the ensuing questions from a historical, theological, and missiological perspective. The data reveals that the respondents profess faith in Jesus Christ; however, most remain unbaptized and insist on their Hindu identity. Hence, a heuristic model for a contextualized baptism as *Guru-diksha* is proposed. The emergent church among Hindu devotees should be considered, from the perspective of world Christianity, as a disparate form of belonging while remaining within one's community of birth. The insistence on a visible church and a distinct community of Christ's followers is contested because the devotees should construct their contextual ecclesiology, since it is an indigenous discovery of the Christian faith. Thus, the Christian label for the adherents is dispensable while retaining their socio-ethnic Hindu identity. Christian mission should discontinue extraction and assimilation; instead, missional praxis should be within the given sociocultural structures, recognizing their idiosyncrasies as legitimate in God's eyes and in need of transformation, like any human culture.

bible verses in hindi language: Colonial India in Children's Literature Supriya Goswami, 2012 *Colonial India in Children's Literature* is the first book-length study to explore the intersections of children's literature and defining historical moments in colonial India. Engaging with important theoretical and critical literature that deals with colonialism, hegemony, and marginalization in children's literature, Goswami proposes that British, Anglo-Indian, and Bengali children's literature respond to five key historical events: the missionary debates preceding the Charter Act of 1813, the defeat of Tipu Sultan, the Mutiny of 1857, the birth of Indian nationalism, and the Swadeshi movement resulting from the Partition of Bengal in 1905. Through a study of works by Mary Sherwood (1775-1851), Barbara Hofland (1770-1844), Sara Jeanette Duncan (1861-1922), Rudyard Kipling (1865-1936), Upendrakishore Ray (1863-1915), and Sukumar Ray (1887-1923), Goswami examines how children's literature negotiates and represents these momentous historical forces that

unsettled Britain's imperial ambitions in India. Goswami argues that nineteenth-century British and Anglo-Indian children's texts reflect two distinct moods in Britain's colonial enterprise in India. Sherwood and Hofland (writing before 1857) use the tropes of conversion and captivity as a means of awakening children to the dangers of India, whereas Duncan and Kipling shift the emphasis to martial prowess, adaptability, and empirical knowledge as defining qualities in British and Anglo-Indian children. Furthermore, Goswami's analysis of early nineteenth-century children's texts written by women authors redresses the preoccupation with male authors and boys' adventure stories that have largely informed discussions of juvenility in the context of colonial India. This groundbreaking book also seeks to open up the canon by examining early twentieth-century Bengali children's texts that not only draw literary inspiration from nineteenth-century British children's literature, but whose themes are equally shaped by empire.

bible verses in hindi language: *Hindi Christian Literature in Contemporary India* Rakesh Peter-Dass, 2019-09-12 This is the first academic study of Christian literature in Hindi and its role in the politics of language and religion in contemporary India. In public portrayals, Hindi has been the language of Hindus and Urdu the language of Muslims, but Christians have been usually been associated with the English of the foreign 'West'. However, this book shows how Christian writers in India have adopted Hindi in order to promote a form of Christianity that can be seen as Indian, desi, and rooted in the religio-linguistic world of the Hindi belt. Using three case studies, the book demonstrates how Hindi Christian writing strategically presents Christianity as linguistically Hindi, culturally Indian, and theologically informed by other faiths. These works are written to sway public perceptions by promoting particular forms of citizenship in the context of fostering the use of Hindi. Examining the content and context of Christian attention to Hindi, it is shown to have been deployed as a political and cultural tool by Christians in India. This book gives an important insight into the link between language and religion in India. As such, it will be of great interest to scholars of Religion in India, World Christianity, Religion and Politics and Interreligious Dialogue, as well as Religious Studies and South Asian Studies.

bible verses in hindi language: Subaltern Narratives in Fiji Hindi Literature Vijay Mishra, 2024-02-13 *Subaltern Narratives in Fiji Hindi Literature* is the first comprehensive study of fiction written in Fiji Hindi that moves beyond the hegemonic and colonially-implicated perspectives that have necessarily informed top-down historical accounts. Mishra makes this case using two extraordinary novels *Ḍaukā Purān* ['A Subaltern Tale'] (2001) and *Fiji Maa* ['Mother of a Thousand'] (2018) by the Fiji Indian writer Subramani. They are massive novels (respectively 500 and 1,000 pages long) written in the devanāgarī (Sanskrit) script. They are examples of subaltern writing that do not exist, as a legitimization of the subaltern voice, anywhere else in the world. The novels constitute the silent underside of world literature, whose canon they silently challenge. For postcolonial, diaspora and subaltern scholars, they are defining (indeed definitive) texts without which their theories remain incomplete. Theories require mastery of primary texts and these subaltern novels, 'heroic' compositions as they are in the vernacular, offer a challenge to the theorist.

bible verses in hindi language: Repertoires and Choices in African Languages Friederike Lüpke, Anne Storch, 2013-05-28 Most African languages are spoken by communities as one of several languages present on a daily basis. The persistence of multilingualism and the linguistic creativity manifest in the playful use of different languages are striking, especially against the backdrop of language death and expanding monolingualism elsewhere in the world. The effortless mastery of several languages is disturbing, however, for those who take essentialist perspectives that see it as a problem rather than a resource, and for the dominating, conflictual, sociolinguistic model of multilingualism. This volume investigates African minority languages in the context of changing patterns of multilingualism, and also assesses the status of African languages in terms of existing influential vitality scales. An important aspect of multilingual praxis is the speakers' agency in making choices, their repertoires of registers and the multiplicity of language ideology associated with different ways of speaking. The volume represents a new and original contribution to the ethnography of speaking of multilingual practices and the cultural ideas associated with them.

bible verses in hindi language: HIEROGLYPHICS KEY NARENDER PIPLANI, 2020-07-24
Hieroglyphic Key For the last two and a half hundred years, many Egyptologists have been searching and deciphering the Egyptian hieroglyphics and claiming that they have deciphered the hieroglyphics signs. But the truth is that not a single Egyptologist has been able to read even a single hieroglyphic sign. All their claims are false and wild guesses. This book contains the key from which you can unlock the mystery not only of Hieroglyphics but also the origin of Alpha-beta and any script of the world. You will know for the first time the true meaning of hundreds of words like Km.t, Mummy, Cairo, Ra, Eye of Horus and Ptolemy. Gardiner's sign list (D30) phonetic is 'nachb-kAw' means 'god Nehebkau'. It is neither two-headed snake nor the two arms raised in the prayer. The hieroglyph is based on Sanskrit homonyms word na-th-h नथह which means 'A rope passed through the nose of a draft ox or any pet. The other meanings are 'a lord, master, protector, leader, God, husband. This hieroglyph was used mostly for 'the lightning god'. (M22) Phonetic is 'nichb' means 'sedge, reed'. Neither the hieroglyph is showing sedge or a reed. Actually, the pictograph was sketched to show the furrow in a field. The two side arms, which are declared 'a set of leaves' by European Egyptologists, these arm type lines are not leaves but showing the ridges like letter V between a furrows. The upper turn shows to come back for next furrow. Based on Sanskrit, the word is sh-mb-h शम्भह which means 'Lightning: ploughing of a field and makes furrow, track or line as the lightning uses to plough the clouds. Other meanings are 'To go, move, happy, fortunate'. Alan Gardiner declared this hieroglyph logogram U1 as a 'sickle' without knowing the Egyptian culture. Though, his searching of phonetic sound of first letter of the word 'ma' was correct. Next diphthong ng was forgotten by Copts. Alas! Egyptologists would have searched the ancient boats of Egypt. The Egyptian hieroglyph Gardiner sign listed no.U1 is a Sanskrit based Egyptian word m-ng मङ्ग, which means 'the head or front of a boat'. (E26) Transliteration '3b, 3bu, eb' by European Egyptologist is not correct. Only Sanskrit has its correct word e-bh-h एभह which means 'an elephant as well as cloud'. The other synonyms for an elephant are 'g-j गज h-sti हस्ति m-tn-g मत्नग, ku-mbhi कुम्भि, m-d-k-l मदकल g-je-ndr गजेन्द्र ku-nj-r कुन्जर dwi-p द्विप va-r-n वारन k-ri-sh कर्षि*'. This hieroglyph of an elephant could be used for all synonyms words which mean 'an elephant as well as cloud'. 'Opening of the mouth' ceremony or ritual --- (F- 13) phonetic is 'wp, jp' means 'horn'. But the real Sanskrit's word is shri-nga श्रिङ्गा which means 'the horn'. (D-21) phonetic is 'r, rr, p (kh) ar' means 'mouth'. But true word of Sanskrit is r-nh रन्ह which means 'talkative, speaking. Often the first letter r of this hieroglyph has used in Egyptian texts. Egyptologists have misinterpreted the above hieroglyphic description as 'opening of the mouth'. The Sanskrit complete word of Shri-nga श्रिङ्गा of F13 and first letter r र of D21 (r-nh) is taken. Thus the complete conjunctive word is Shri-nga+r श्रिङ्गार which means 'A fragrant for dress or body, to make up, adornment of body'. This refinement by makeup of mummy (shabti) was ritual. The term Shri-nga-r (makeup) is for both the living and the dead person. Guessing to see the open horns means 'opening of the mouth ceremony' is wild guess. Not only this, the key given in this book is Australian aborigine and also reveals the mysteries of the language of the Kenya and the tribal of Africa. The key given in this book opens the locks of hidden secrets of every ancient religion, culture and civilization of the world, not just Peru, Inca and Maya.
