WASHINGTON — The Army official who managed the Pentagon's largest contract in Iraq says he was ousted from his job when he refused to approve paying more than \$1 billion in questionable charges to KBR... (James Risen, New York Times, June 17, 2008) This book by that very Army official provides an eye-opening firsthand account of how the US Government hands over your tax dollars to support contractors like KBR and Halliburton, rather than supporting the troops. This authoritative and well-documented record of the LOGCAP contract in Iraq and Afghanistan is at the same time a study of US participation in Iraq and Afghanistan as well as the workings of government agencies and Congress. The first chapter sets the scene, briefly narrating the author's work on behalf of US military efforts, especially in Iraq. Subsequent chapters illustrate specific issues in contractor relations that resulted in unsafe conditions for the troops and blew millions of taxpayer dollars. Loyal and hard-working government officials and employees who tried to keep things on track were turned away and those who sought to rein in the free-for-all were sacked. The author reveals problems with KBR's provision of transportation, electricity, food and water. Other chapters are more analytic and evaluate Army logistics, Congressional oversight and the question of whether letting contracts for this kind of support is appropriate at all--the kind of problems that concern military policy leaders, defense analysts, public policy analysts and scholars in these areas, as well as the citizens in whose name this is all done.

Schafer, 2013-11-12 Florida Book Awards, Silver Medal for Florida Nonfiction Florida Historical Society Charlton Tebeau Award Florida Historical Society Stetson Kennedy Award A biography of a controversial patriarch of a mixed-race family A controversial figure for his views on manumission and his unorthodox marital arrangements, Zephaniah Kingsley Jr. (1765-1843) is mostly known today for his Fort George Island plantation in Duval County, Florida, now a National Park Service site, and for his 1828 pamphlet, *A Treatise on the Patriarchal System of Society*, that advocated just and humane treatment of enslaved persons, liberal emancipation policies, and granting rights to free persons of color. Paradoxically, his fortune came from the purchase, sale, and labor of enslaved Africans. In this penetrating biography, Daniel Schafer vividly chronicles Kingsley's evolving thoughts on race and slavery, exploring his business practices and his private life. Kingsley fathered children by several enslaved women, then freed and lived with them in a unique mixed-race family. One of the women—the only one he acknowledged as his wife though they were never formally married—was Anta Madgigine Ndiaye (Anna Kingsley), a member of the Senegalese royal family, who was captured in a slave raid and purchased by Kingsley in Havana, Cuba.
