Services Offered at Cynergy Physical Therapy Midtown East

Cynergy Physical Therapy Midtown East provides a wide range of rehabilitative and therapeutic services designed to meet diverse patient needs. From acute injury recovery to chronic condition management, the clinic's offerings encompass various specialized treatments that promote healing and functional improvement.

Orthopedic Rehabilitation

Orthopedic rehabilitation is a core service at Cynergy Physical Therapy Midtown East, focusing on recovery from musculoskeletal injuries and surgeries. This includes treatment plans for conditions such as ligament tears, fractures, joint replacements, and tendonitis. Therapists use manual therapy, therapeutic exercises, and modalities to restore strength, flexibility, and range of motion.

Sports Injury Therapy

For athletes and active individuals, Cynergy Physical Therapy Midtown East offers targeted sports injury therapy designed to accelerate recovery and reduce the risk of reinjury. Customized programs address common sports-related issues such as sprains, strains, and overuse injuries.

Post-Surgical Rehabilitation

Patients recovering from surgeries such as total knee replacements, shoulder repairs, or spinal surgery receive specialized post-surgical rehabilitation. The goal is to regain function and independence while minimizing pain and preventing complications.

Chronic Pain Management

Chronic pain can significantly impact quality of life. Cynergy Physical Therapy Midtown East employs comprehensive pain management strategies including therapeutic exercises, manual therapy, and education to help patients manage conditions like arthritis, fibromyalgia, and lower back pain.

Balance and Fall Prevention

Especially important for older adults, balance and fall prevention programs are designed to improve stability, coordination, and confidence. These services help reduce fall risk through strength training and proprioceptive exercises.
