forgive me in arabic language: Arabic Dialogues Rachel Mairs, 2024-03-04 During the nineteenth century and into the early twentieth century, more Europeans visited the Middle East than ever before, as tourists, archaeologists, pilgrims, settler-colonists and soldiers. These visitors engaged with the Arabic language to differing degrees. While some were serious scholars of Classical Arabic, in the Orientalist mould, many did not learn the language at all. Between these two extremes lies a neglected group of language learners who wanted to learn enough everyday colloquial Arabic to get by. The needs of these learners were met by popular language books, which boasted that they could provide an easy route to fluency in a difficult language. *Arabic Dialogues* explores the motivations of Arabic learners and effectiveness of instructional materials, principally in Egypt and Palestine, by analysing a corpus of Arabic phrasebooks published in nine languages (English, French, German, Spanish, Portuguese, Italian, Yiddish, Hebrew, Russian) and in the territory of twenty-five modern countries. Beginning with Napoleon's *Expédition d'Égypte* (1798-1801), it moves through the periods of mass tourism and European colonialism in the Middle East, concluding with the Second World War. The book also considers how Arab intellectuals understood the project of teaching Arabic to foreigners, the remarkable history of Arabic-learning among Yiddish- and Hebrew-speaking immigrants in Palestine, and the networks of language learners, teachers and plagiarists who produced these phrasebooks.

It also covers sociolinguistics, applied linguistics, and discourse analysis by looking at issues such as gender, urbanization, and language ideology. Underlying themes include the changing and evolving attitudes of speakers of Arabic and theoretical approaches to linguistic variation in the Middle East.

forgive me in arabic language: For God or Empire Wilson Chacko Jacob, 2019-07-30 Sayyid Fadl, a descendant of the Prophet Muhammad, led a unique life—one that spanned much of the nineteenth century and connected India, Arabia, and the Ottoman Empire. *For God or Empire* tells his story, part biography and part global history, as his life and legacy afford a singular view on historical shifts of power and sovereignty, religion and politics. Wilson Chacko Jacob recasts the genealogy of modern sovereignty through the encounter between Islam and empire-states in the Indian Ocean world. Fadl's travels in worlds seen and unseen made for a life that was both unsettled

and unsettling. And through his life at least two forms of sovereignty—God and empire—become apparent in intersecting global contexts of religion and modern state formation. While these changes are typically explained in terms of secularization of the state and the birth of rational modern man, the life and afterlives of Sayyid Fadl—which take us from eighteenth- and nineteenth-century Indian Ocean worlds to twenty-first century cyberspace—offer a more open-ended global history of sovereignty and a more capacious conception of life.

forgive me in arabic language: Prayer in Islamic Thought and Practice Marion Holmes Katz, 2013-04-29 The five daily prayers (Salāt) that constitute the second pillar of Islam deeply pervade the everyday life of observant Muslims. Until now, however, no general study has analyzed the rules governing Salāt, the historical dimensions of its practice and the rich variety of ways that it has been interpreted within the Islamic tradition. Marion Holmes Katz's richly textured book offers a broad historical survey of the rules, values and interpretations relating to Salāt. This innovative study on the subject examines the different ways in which prayer has been understood in Islamic law, Sufi mysticism and Islamic philosophy. Katz's book also goes beyond the spiritual realm to analyze the political dimensions of prayer, including scholars' concerns about the righteousness and piety of rulers. The last chapter raises significant issues around gender roles, including the question of women's participating in and leading public worship. This book will resonate with students of Islamic history and comparative religion.
