free printable teacher favorite things: *From Oops to Aha* Maleka Donaldson, 2021-04-30
From Oops to Aha pulls back the curtain on learning from mistakes in four public school Kindergarten classrooms: urban, charter, Montessori, and suburban. With each chapter, the reader is transported directly into the daily lives of teachers and their students. The portraits offer poignantly-detailed, moment-by-moment illustrations of how teachers respond to mistakes and interact with students. At the micro-level, this perspective reveals how teachers' beliefs, intentions, and instructional practices play out in context during daily life in the classroom. By juxtaposing the true stories of the lives of Kindergarten teachers and children, Donaldson makes plain that even in this very early grade, there is a wide and striking range of children's interpersonal and learning experiences in school. All Kindergarten classrooms are not the same; the nuanced way teachers respond to mistakes in the moment is impacted by access to resources and by policies enacted at a broader level. This book will inform and inspire readers to reexamine preconceived notions of mistakes, feedback, and early childhood learning and teaching, and to reconsider their impact on educational equity.

free printable teacher favorite things: Music Discovery Daniel J. Healy, Kimberly Lansinger Ankney, 2020-07-15 Improvisation is a boundless and exciting way to experience music, especially for students. Teachers increasingly agree that improvisation is an essential skill for students to learn - however, many are unsure how to productively incorporate it in the classroom. Furthermore, most improvisational practices are centered around jazz, with very little to help even classical and vocal ensembles let alone the general music classroom. Now, in this new book, Daniel Healy and Kimberly Lansinger Ankney offer a practical volume aimed at busy music teachers. Recognizing educators' desire to balance the standard curriculum with improvisational activities, the authors provide 36 activities to incorporate into their everyday music classes and ensemble practices. All activities are flexibly designed in styles ranging from modern classical to pop. Teachers can spend anywhere from 5 minutes to an entire term on a single activity, in a variety of environments and ensembles - concert bands, orchestras, choirs, jazz ensembles, and music technology classes alike can benefit from the practices of improvisation. Aligning improvisation practices with the constraints of the classroom, the lessons focus on key music learning principles (melody, harmony, rhythm, texture/timbre, articulation, and dynamics), allowing students' basic performance skills to develop in conjunction

with their improvisational ones. The book also comes with a companion website which provides helpful resources for teachers, including recordings of actual K-12 ensembles performing the improvisation activities. Designed for a wide range of ages and experience levels, *Music Discovery: Improvisation for the Large Ensemble and Music Classroom* is the first practical guide of its kind, and gives teachers a long-awaited jumping-off point to introduce this playful, thrilling, and vital musical practice to their students.
