Time, Place, and Manner Restrictions

free speech alley lsu: The Klansman's Son R. Derek Black, 2024-05-14 From the former heir-apparent to white nationalism, *The Klansman's Son* is an astonishing memoir of a childhood built on fear, of breaking from a community of hate. When coded language and creeping authoritarianism spread the ideas of white nationalists, this is an essential book with a powerful voice. Derek Black was raised to take over the white nationalist movement in the United States. Their father, Don Black, was a former Grand Wizard in the Ku Klux Klan and started Stormfront, the internet's first white supremacist website—Derek built the kids' page. David Duke, was also their close family friend and mentor. Racist hatred, though often wrapped up in respectability, was all Derek knew. Then, while in college in 2013, Derek publicly renounced white nationalism and

apologized for their actions and the suffering that they had caused. The majority of their family stopped speaking to them, and they disappeared into academia, convinced that they had done so much harm that there was no place for them in public life. But in 2016, as they watched the rise of Donald Trump, they immediately recognized what they were hearing—the spread and mainstreaming of the hate they had helped cultivate—and they knew that they couldn't stay silent. This is a thoughtful, insightful, and moving account of a singular life, with important lessons for our troubled times. Derek can trace a uniquely insider account of the rise of white nationalism, and how a child indoctrinated with hate can become an anti-racist adult. Few understand the ideology, motivations, or tactics of the white nationalist movement like Derek, and few have ever made so profound a change.

free speech alley lsu: Louisiana State University Barry Cowan, 2013-11-04 Louisiana State University began in 1860 as a small, all-male military school near Pineville. The institution survived the Civil War, Reconstruction politics, and budgetary difficulties to become a nationally and internationally recognized leader in research and teaching. A devastating fire destroyed the campus in 1869, and the school moved to Baton Rouge, where it has remained. Successive moves to larger campuses in 1887 and 1925 created greater opportunities in academics, student life, and athletics. Academics began with classical and engineering courses. New majors in the arts, literature, engineering, agriculture, and the sciences evolved, along with research in those fields. Student life changed from military regimentation to coeducation and students freedom to live off campus and make their own decisions. Intercollegiate athletics began in 1893 with baseball and football games against Tulane, and the LSU Tigers have since won numerous championships. These evolutionary steps all helped to create Louisianas flagship university.

Mann has known every Louisiana governor--aside from Uncle Earl--since 1944. He has interviewed past presidents, senators, and aides as a journalist and served as press secretary to two of the most influential Louisiana legislators. He acted as press secretary to the 1990 US Senate reelection campaign of J. Bennett Johnston when he defeated former Klan leader David Duke. He helped elect Mary Landrieu to the US Senate, and his engaging stories range from Russell Long's struggle with his father's past to how Mann lost John Breaux's suitcase. Through it all, Mann writes with humor and empathy, casting politics and politicians in a refreshing, human light. His life story serves as both a cautionary tale for young people seeking a political career and an entertaining recitation of his decades of experience, offering a fresh look at Louisiana political history.

free speech alley lsu: *Wizards* Brian Fairbanks, 2022-10-15 A corrupt old Democrat. A surging Republican populist. The Democrat, hounded by corruption allegations; the Republican, dogged by business failures and ties to white supremacists. The Republican turned out thousands of screaming supporters for speeches blaming illegal immigrants and crime on the Democrats, and the Democrat plummeted in the polls. Sound familiar? The '91 Louisiana Governor's race was supposed to be forgettable. But when former KKK Grand Wizard David Duke shocked the nation by ousting incumbent Republican Governor Buddy Roemer in the primary, the world took notice. Democrat Edwin Edwards, a former three-term governor and two-time corruption defendant, was left alone to face Duke in the general election—and he was going to lose. Then a little-known state committeewoman stepped in with evidence of Duke's nefarious past. Could her evidence be enough to sway the minds of fired-up voters, or would Louisiana welcome a far-right radical into the highest office in the state? Journalist Brian Fairbanks explores how the final showdown between Duke and Edwards in November 1991 led to a major shift in our national politics, as well as the rise of the radical right and white supremacist groups, and how history repeated itself in the 2016 presidential election. The story of these political wizards, almost forgotten by history, remains eerily prescient and disturbingly relevant, and a compulsive page-turner.

free speech alley lsu: Under Stately Oaks Thomas F. Ruffin, 2006-10-15 In a captivating blend of photographs and text, *Under Stately Oaks* showcases over 150 years of Louisiana State University's past, following the evolution of the tiny Seminary of Learning of the State of Louisiana, founded near Pineville in 1853, into a university of well over 30,000 students for the twenty-first century. Thomas F. Ruffin has written an affectionate history of LSU, but it is also an honest one. The notorious scandals of 1939, the university's desegregation struggles, and free-speech alley confrontations during the civil rights movement and the Vietnam War, as well as the football team's 2003 NCAA championship and the university's pivotal role in relief efforts following Hurricane Katrina -- all are chronicled here. From the red pantile roofs and honey-colored stucco of its Italian Renaissance architecture to the stately oaks and broad magnolias hailed in the alma mater, the distinct beauty of the LSU campus is unrivaled. The history of the state's flagship university is as colorful as the azaleas that adorn its landscape every spring. Its first superintendent, William Tecumseh Sherman, later opposed its first faculty member and future president, David F. Boyd, in war. Yet both also fought for an LSU curriculum that embraced a liberal education with a classical component. When LSU lost its state funding during the 1870s, it was Boyd who maneuvered a merger with Louisiana A&M College, a move that ensured LSU's survival and preserved its identity. In the 1930s, Huey Long demanded the best for LSU on many fronts, and by the mid-twentieth century the institution was not only the state's premier university but also nationally recognized for its prestigious faculty and cutting-edge research. This newly updated edition features a foreword by Chancellor Sean O'Keefe and a final chapter entitled *The 21st Century and Beyond*, which details the concrete steps LSU has taken towards fulfilling its goal of becoming a nationally competitive flagship institution. The last chapter also portrays, in text and striking photographs, the central role LSU played in emergency relief efforts following Hurricane Katrina, and examines how the university is faring in the post-Katrina world. *Under Stately Oaks* captures the spirit of the university as never before. Though the book shows that much has changed over the years, it is primarily a celebration of the timeless aspects of the LSU experience and a compelling testimony to the

university's ongoing commitment to progress.

free speech alley lsu: Rising Out of Hatred Eli Saslow, 2019-09-03 The powerful story of how a prominent white supremacist changed his heart and mind. From the Pulitzer Prize-winning reporter, this is a book to help us understand the American moment and to help us better understand one another. "Rising Out of Hatred proclaims if the successor to the white nationalist movement can forsake his ideological upbringing, can rebirth himself in antiracism, then we can too no matter the personal cost. This book is an inspiration." —Ibram X. Kendi, bestselling author of *How to Be An Antiracist* Derek Black grew up at the epicenter of white nationalism. His father founded Stormfront, the largest racist community on the Internet. His godfather, David Duke, was a KKK Grand Wizard. By the time Derek turned nineteen, he had become an elected politician with his own daily radio show—already regarded as the the leading light of the burgeoning white nationalist movement. We can infiltrate, Derek once told a crowd of white nationalists. We can take the country back. Then he went to college. At New College of Florida, he continued to broadcast his radio show in secret each morning, living a double life until a classmate uncovered his identity and sent an email to the entire school. Derek Black ... white supremacist, radio host ... New College student??? The ensuing uproar overtook one of the most liberal colleges in the country. Some students protested Derek's presence on campus, forcing him to reconcile for the first time with the ugliness of his beliefs. Other students

found the courage to reach out to him, including an Orthodox Jew who invited Derek to attend weekly Shabbat dinners. It was because of those dinners—and the wide-ranging relationships formed at that table—that Derek started to question the science, history, and prejudices behind his worldview. As white nationalism infiltrated the political mainstream, Derek decided to confront the damage he had done. *Rising Out of Hatred* tells the story of how white-supremacist ideas migrated from the far-right fringe to the White House through the intensely personal saga of one man who eventually disavowed everything he was taught to believe, at tremendous personal cost. With great empathy and narrative verve, Eli Saslow asks what Derek Black's story can tell us about America's increasingly divided nature.

free speech alley lsu: Cooking with Grease Donna Brazile, 2012-09-04 *Cooking with Grease* is a powerful, behind-the-scenes memoir of the life and times of a tenacious political organizer and the first African-American woman to head a major presidential campaign. Donna Brazile fought her first political fight at age nine -- campaigning (successfully) for a city council candidate who promised a playground in her neighborhood. The day after Martin Luther King Jr. was assassinated, she committed her heart and her future to political and social activism. By the 2000 presidential election, Brazile had become a major player in American political history -- and she remains one of the most outspoken and forceful political activists of our day. Donna grew up one of nine children in a working-poor family in New Orleans, a place where talking politics comes as naturally as stirring a pot of seafood gumbo -- and where the two often go hand in hand. Growing up, Donna learned how to cook from watching her mother, Jean, stir the pots in their family kitchen. She inherited her love of reading and politics from her grandmother Frances. Her brothers Teddy Man and Chet worked as foot soldiers in her early business schemes and voter registration efforts. *Cooking with Grease* follows Donna's rise to greater and greater political and personal accomplishments: lobbying for student financial aide, organizing demonstrations to make Martin Luther King Jr.'s birthday a national holiday and working on the Jesse Jackson, Dick Gephardt, Michael Dukakis and Bill Clinton presidential campaigns. But each new career success came with its own kind of heartache, especially in her greatest challenge: leading Al Gore's 2000 campaign, making her the first African American to lead a major presidential campaign. *Cooking with Grease* is an intimate account of Donna's thirty years in politics. Her stories of the leaders and activists who have helped shape America's future are both inspiring and memorable. Donna's witty style and innovative political strategies have garnered her the respect and admiration of colleagues and adversaries alike -- she is as comfortable trading quips with J. C. Watts as she is with her Democratic colleagues. Her story is as warm and nourishing as a bowl of Brazile family gumbo.

free speech alley lsu: Years of Rage D. J. Mulloy, 2021-11-30 *Years of Rage* is a revealing—and frightening—history of the many and varied white supremacist groups that have operated in the United States from the rebirth of the Klan in 1915 through to the rise of the alt-right and the presidency of Donald J. Trump. Historian D. J. Mulloy explores the motivations and underlying beliefs of these racists, their fears of displacement, their propaganda, their propensity to commit acts of violence and terrorism, and their deep and unwavering sense of rage. He also considers the important role played by women within the movement, as well as white supremacy's deep roots in American society. Indeed, Mulloy demonstrates that rather than being consigned to the margins of American history, at times—the 1920s; the 1950s; the presidency of Trump—white supremacy has been remarkably close to the center. Wide-ranging yet accessible, *Years of Rage* examines a host of fascinating topics and events including the skillful promotion of the Klan by professional salesmen during the 1920s, the vicious campaign of violence directed against the civil rights movement during the 1950s and 1960s, the development of a Nazi-Klan alliance during the 1970s, the centrality of esoteric religious beliefs like Identity Christianity to many white supremacists, the bombing of the Murrah Federal Building in Oklahoma City in 1995, and the critical role played by the Internet, social media, and Donald Trump to the startling resurgence of far right in our own time.

free speech alley lsu: Redefining Babes, Booze and Brawls Luoluo Hong, 1999 Despite evidence that 90% of violent crimes are committed by men, higher education professionals and

researchers still understand relatively little about the process by which male students acquire the attitudes, knowledge, values and skills which serve as deterrents to perpetrating violence against women and against other men. Men Against Violence is a peer advocacy organization at a large, public Research I institution in the South which focuses on the special and unique responsibility men have to end violence. Through participation in a wide array of service learning, community action and leadership opportunities, MAV members challenge cultural norms which link masculinity with violence. Types of violence targeted by MAV include: fighting, domestic violence, rape, vandalism, hazing, harassment, hate crimes, homicide and suicide. Utilizing a sociological, public health perspective that incorporates theories of masculinity and models of student development, this dissertation is a case study of the organization Men Against Violence. It examines the ways in which a close-knit association of men generated and sustained an organizational culture that encourages and rewards non-violence among its members, as well as begins to reframe traditional conceptions of masculinity. Subjects for this study consisted of the eight male students who comprised the 1997-1998 Executive Board of MAV. Primary research questions were: (1) What are the characteristics of an organizational culture of non-violence that is created and maintained among a close-knit group of male college students? (2) How can higher education professionals, particularly women, facilitate the process of creating such an organizational culture? Chapter 1 addresses methodological concerns in the dissertation; Chapters 2 and 3 review current literature regarding men and campus violence; Chapter 4 provides a historical narrative of the founding and development of MAV; Chapter 5 presents cultural themes which emerged during content analysis of data from ethnographic interviews and participant-observation; and Chapter 6 offers theoretical and practical implications of the study.
