Understanding the exam structure is crucial for effective preparation, as it allows students to anticipate question types and manage their time efficiently.

Sections of the SHSAT

The SHSAT consists of two main sections: English Language Arts (ELA) and Mathematics. Each section includes various question types aimed at evaluating specific skills.

- **English Language Arts (ELA):** This section assesses reading comprehension and revising/editing skills. It includes passage-based questions and revising/editing multiple-choice questions.
- **Mathematics:** This section covers arithmetic, algebra, geometry, and word problems. It tests problem-solving abilities through multiple-choice and grid-in questions.

Timing and Format

The exam typically lasts around three hours, with each section timed separately. Students must answer approximately 57 questions, divided between the two sections. Familiarity with the timing and question distribution can help students pace themselves during the test.
