Frontier Airlines focuses on hiring individuals who can maintain a positive attitude, ensure passenger safety, and represent the airline's brand effectively. Applicants should expect questions that probe their past experiences, communication skills, and ability to handle challenging situations.

Examples of Common Interview Questions

Below are some common questions that candidates may face during a Frontier Airlines flight attendant interview:

- Why do you want to work for Frontier Airlines as a flight attendant?

- How would you handle a difficult passenger during a flight?
- Describe a time when you provided excellent customer service.
- What makes you a good fit for the role of a flight attendant?

Behavioral Questions and How to Answer Them

Behavioral questions are a core component of frontier airlines flight attendant interview questions. These questions require candidates to reflect on past experiences to demonstrate their competencies. The airline uses behavioral interviewing to assess how applicants have handled situations related to teamwork, conflict resolution, and customer service.

Using the STAR Method

The STAR (Situation, Task, Action, Result) method is highly recommended when responding to behavioral questions. This structured approach helps candidates provide clear and concise answers:

- **Situation:** Describe the context within which you performed a task or faced a challenge.
- **Task:** Explain the actual task or responsibility involved.
- **Action:** Detail the specific actions you took to address the task.
- **Result:** Share the outcome or results of your actions.

For example, if asked about handling an upset passenger, a candidate might describe a particular incident, how they listened attentively, de-escalated the situation, and ensured the passenger felt valued.

Situational Questions Specific to Frontier Airlines

Situational questions are designed to evaluate a candidate's problem-solving abilities and how they would react in real-life flight scenarios. Frontier Airlines flight attendant interview questions in this category often focus on safety, customer service, and teamwork under pressure.

Examples of Situational Interview Questions

Candidates might be asked to respond to questions such as:

- What would you do if a passenger refuses to comply with a safety instruction?
- How would you manage a medical emergency onboard?
- Describe how you would assist a passenger with special needs.
- How do you handle a situation where two passengers are arguing?
- What steps would you take if a fellow crew member is not performing their duties?

These questions assess the ability to remain calm, follow protocols, and maintain a positive flying experience for all passengers.

Technical and Safety-Related Interview Questions

Flight attendants must have a strong understanding of safety procedures and emergency protocols. Frontier Airlines includes technical and safety-related questions in their interview process to ensure candidates are prepared for the responsibilities of the role. These questions test knowledge of FAA regulations, emergency equipment, and standard operating procedures.

Sample Technical and Safety Questions

Applicants may be asked:

- What are the steps to follow during a decompression emergency?
- Can you explain the use of the emergency oxygen system?
- How would you respond if there was a fire onboard?
- What is the protocol for evacuating passengers during an emergency?

frontier airlines flight attendant interview questions: 295 Flight Attendant Interview Questions with Answers That Work, 2020-01-15 295 FLIGHT ATTENDANT INTERVIEW QUESTIONS WITH ANSWERS THAT WORK is a very unique book which evolved from the first edition which had only 101 questions in 1998. It has always been a companion to another book written by Tom Janovsky, called FLIGHT ATTENDANT CAREER (ISBN 978-1-7337588-0-2). The fifth edition of that book was published in 2019. Both books helped thousands to the highly coveted job as a flight attendant. Tom Janovsky spent years working for the airlines and by far he enjoyed the most working for Delta Air Lines as a flight attendant.. He attended many Open Houses for the flight attendant job and saw that while he always got in, there was a huge number of those who have come to one interview after another but were always rejected. Since he had a knack for simplifying concepts (wrote several manuals for physicians and nurses when working as a registered nurse in Critical Care), he authored his first book on how to succeed at airline interviews. This question and answer book is now in its 5th edition. It owes its success to the system used for preparing flight attendant candidates for the tough interviews. It features all questions Tom collected around the world over the last two decades, and each question is followed by an answer that worked for many people during interviews. Those answers are merely examples so that each candidate can come up with his or her own answer that is uniquely theirs, but along the successful line. It is profusely illustrated, mainly but great aviation photos taken by a Czech aviation professional, Mr. Martin Novak.
