i don t understand in german language: Works Georg Ebers, 1883

i don t understand in german language: A Word, Only a Word (Complete) Georg Ebers, 1915-01-01 A word, only a word! cried a fresh, boyish voice, then two hands were loudly clapped and a gay laugh echoed through the forest. Hitherto silence had reigned under the boughs of the pines and tops of the beeches, but now a wood-pigeon joined in the lad's laugh, and a jay, startled by the clapping of hands, spread its brown wings, delicately flecked with blue, and soared from one pine to another. Spring had entered the Black Forest a few weeks before. May was just over, yet the weather was as sultry as in midsummer and clouds were gathering in denser and denser masses. The sun was still some distance above the horizon, but the valley was so narrow that the day star had disappeared, before making its majestic entry into the portals of night. When it set in a clear sky, it only gilded the border of pine trees on the crest of the lofty western heights; to-day it was invisible, and the occasional, quickly interrupted twittering of the birds seemed more in harmony with the threatening clouds and sultry atmosphere than the lad's gay laughter. Every living creature seemed to be holding its breath in anxious suspense, but Ulrich once more laughed joyously, then bracing his bare knee against a bundle of faggots, cried: Give me that stick, Ruth, that I may tie it up. How dry the stuff is, and how it snaps! A word! To sit over books all day long for one stupid word—that's just nonsense! But all words are not alike, replied the girl. Piff is paff, and paff is puff! laughed Ulrich. When I snap the twigs, you always hear them say 'knack, knack,' and 'knack' is a word too. The juggler Caspar's magpie, can say twenty. But father said so, replied Ruth, arranging the dry sticks. He toils hard, but not for gold and gain, to find the right words. You are always

wanting to know what he is looking for in his big books, so I plucked up courage to ask him, and now I know. I suppose he saw I was astonished, for he smiled just as he does when you have asked some foolish question at lessons, and added that a word was no trifling thing and should not be despised, for God had made the world out of one single word.

i don t understand in german language: Modern Approaches to Researching Multilingualism Danuta Gabrys-Barker, Eva Vetter, 2024-04-15 The volume offers a collection of the most recent research coming from scholars and practitioners in the field of multilingualism research in various contexts of natural/immersion environments, school/formal instruction, grounded in multilingual societies and individual multilinguality of semi-monolingual countries. The studies included in the book constitute an exemplification of new methods of research used (e.g., narratives, visualizations, metaphors) as well as new approaches to multilingualism (affordances, dominant language constellations). The volume is divided into four parts: Part One focuses on different dimensions of multilingualism, Part Two zooms in on the concept of affordances and their role in the development of multilingual competence, Part Three concentrates on dominant language constellations in different contexts and, finally, Part Four shifts the focus to instructional practices in teaching multiple languages.

i don t understand in german language: Digital Feminisms Christina Scharff, Carrie Smith-Prei, Maria Stehle, 2018-04-19 The relative rise or decline of feminist movements across the globe has been debated by feminist scholars and activists for a long time. In recent years, however, these debates have gained renewed momentum. Rapid technological change and increased use of digital media have raised questions about how digital technologies change, influence, and shape feminist politics. This book interrogates the digital interface of transnational protest movements and local activism in feminist politics. Examining how global feminist politics is articulated at the nexus of the transnational/national, we take contemporary German protest culture as a case study for the manner in which transnational feminist activism intersects with the national configuration of feminist political work. The book explores how movements and actions from outside Germany's borders circulate digitally and resonate differently in new local contexts, and further, how these border-crossings transform grass-roots activism as it goes digital. This book was originally published as a special issue of Feminist Media Studies.

i don t understand in german language: Translation and Translating in German Studies John L. Plews, Diana Spokiene, 2016-11-08 Translation and Translating in German Studies is a collection of essays in honour of Professor Raleigh Whiting, a well-loved scholar of German literature, an inspiring teacher, and an exceptional editor and translator. Its twenty chapters, written by Canadian and international experts explore new perspectives on translation and German studies as they inform processes of identity formation, gendered representations, visual and textual mediations, and teaching and learning practices. Translation (as a product) and translating (as a process) function both as analytical categories and as objects of analysis in literature, film, dance, architecture, history, second-language education, and study-abroad experiences. The volume arches from theory and genres more traditionally associated with translation (i.e., literature, philosophy) to new media (dance, film) and experiential education, and identifies pressing issues and themes that are increasingly discussed and examined in the context of translation. This study will be invaluable to university and college faculty working in the disciplines in German studies as well as in translation, cultural studies, and second-language education. Its combination of theoretical and practical explorations will allow readers to view cultural texts anew and invite educators to revisit long-forgotten or banished practices, such as translation in (auto)biographical writing and in the German language classroom.

Sascha Krannich, Uwe Hunger, 2024-03-27 How do international students and alumni contribute to development in their countries of origin? Is the development effect greatest when students return to their countries of origin directly after completing their studies and become involved locally there, or can they also support the development of their country of origin if they remain abroad after their studies and contribute their knowledge and capital to the development process of their country of origin via transnational networks? Specifically, this question is examined in this publication using the example of the scholarship and alumni work of the Catholic Academic Alien Service (KAAD) in five countries of different developing regions: Georgia, Ghana, Indonesia, Colombia and Palestine.

i don t understand in german language: ME, YOU, WE & Diversity

Susan Omondi, 2024-08-20 We fear what we don't know. No matter what country or culture we come from or what color our skin is, we all have this primal fear of the unknown. This diffuse fear that we share is also the thing that separates us from one another. Hardly any other topic is as charged with such controversy, polarization, doubt and inhibitions as the topic of integration. With her book, 47 magical ways locals and non-locals meet each other, Susan Omondi sets out to overcome the rifts that divide us. Profound, touching and always humorous, the Kenyan-born author tells stories from her everyday life, raises awareness of racism and sheds light on the perspectives of both immigrants or non-locals and locals. As an author, keynote speaker, moderator and trainer, Omondi's main focus is on diversity in the workplace and the great professional and human opportunities that come with overcoming our fears and prejudices. She lives out the motto: When we engage with one another, magic happens.
