Nolan Higdon and Nicholas Baham III connect contemporary podcasting to the broader history of the use of radio technology in the service of anti-colonial struggle and revolution. i hate politics podcast: Politics for the Love of Fandom Ashley Hinck, 2019-03-13 Politics for the Love of Fandom examines what Ashley Hinck calls “fan-based citizenship”: civic action that blends with and arises from participation in fandom and commitment to a fan-object. Examining cases like Harry Potter fans fighting for fair trade, YouTube fans donating money to charity, and football fans volunteering to mentor local youth, Hinck argues that fan-based citizenship has created new civic practices wherein popular culture may play as large a role in generating social action as traditional political institutions such as the Democratic Party or the Catholic Church. In an increasingly digital world, individuals can easily move among many institutions and groups. They can choose from more people and organizations than ever to inspire their civic actions—even the fandom for children's book series Harry Potter can become a foundation for involvement in political life and social activism. Hinck explores this new kind of engagement and its implications for politics and citizenships, through case studies that encompass fandoms for sports, YouTube channels, movies, and even toys. She considers the ways in which fan-based social engagement arises organically, from fan communities seeking to change their world as a group, as well as the methods creators use to leverage their fans to take social action. The modern shift to networked, fluid communities, Hinck argues, opens up opportunities for public participation that occurs outside of political parties, houses of worship, and organizations for social action. Fan-based citizenship performances help us understand the future possibilities of public engagement, as fans and creators alike tie the ethical frameworks of fan-objects to desired social goal, such as volunteering for political candidates, mentoring at-risk youth, and promoting environmentally friendly policy. Politics for the Love of Fandom examines the communication at the center of these civic actions, exploring how fans, nonprofits, and media companies manage to connect internet-based fandom with public issues.

i hate politics podcast: What IS News? Donnalyn Pompper, Lindsay Hoffman, 2021-06-07 This volume explores contemporary understandings of news values and the fake news phenomena and collects together important new theory-building research that sheds light on implications of compromised news products and the ways it shapes perceptions. News does not happen in a vacuum and journalism is a practice with a definable milieu which manufactures a product shaped by a complex and subjective collection, organization, and dissemination of information. The social import of revisiting Herbert Gans’ what is news ethnographic query in 1979 played out in earnest in 2020. Americans watched news coverage of the COVID-19 pandemic offer politicized health information complete with conflicting reports of disagreeing experts, conspiracy theories, vaccination resistance, and racist language targeting China and people of Asian descent. This collection expands on mass communication theory frameworks built since the 1970s, to enable us to better operationalize and understand mass media’s role in defining, shaping, and amplifying news. The chapters in this book were originally published as a special issue of Mass Communication and Society.

i hate politics podcast: Confederate Exceptionalism Nicole Maurantonio, 2022-09-30 Along with Confederate flags, the men and women who recently gathered before the Virginia Museum of Fine Arts carried signs proclaiming “Heritage Not Hate.” Theirs, they said, was an “open and visible

protest against those who attacked us, our flags, our ancestors, or our Heritage.” How, Nicole Maurantonio wondered, did “not hate” square with a “heritage” grounded in slavery? How do so-called neo-Confederates distance themselves from the actions and beliefs of white supremacists while clinging to the very symbols and narratives that tether the Confederacy to the history of racism and oppression in America? The answer, Maurantonio discovers, is bound up in the myth of Confederate exceptionalism—a myth whose components, proponents, and meaning this timely and provocative book explores. The narrative of Confederate exceptionalism, in this analysis, updates two uniquely American mythologies—the Lost Cause and American exceptionalism—blending their elements with discourses of racial neoliberalism to create a seeming separation between the Confederacy and racist systems. Incorporating several methods and drawing from a range of sources—including ethnographic observations, interviews, and archival documents—Maurantonio examines the various people, objects, and rituals that contribute to this cultural balancing act. Her investigation takes in “official” modes of remembering the Confederacy, such as the monuments and building names that drive the discussion today, but it also pays attention to the more mundane and often subtle ways in which the Confederacy is recalled. Linking the different modes of commemoration, her work bridges the distance that believers in Confederate exceptionalism maintain; while situated in history from the Civil War through the civil rights era, the book brings much-needed clarity to the constitution, persistence, and significance of this divisive myth in the context of our time.

Why I'm Right... And Everyone Else is Wrong compiles the very best of Harris's blog. i hate politics podcast: Star Power Lauren Wright, 2019-07-04 Are celebrity politics the spice of American public life or a pox on policy progress? This book identifies and measures the attributes of celebrities that make them well-equipped to win campaigns and yet poorly prepared to govern effectively. The framers of the U.S. Constitution worried about the propensity of an undereducated public to elect unqualified entertainers rather than fit characters to government positions. Celebrities have come to play an increasingly central role in the American political process as fundraisers, surrogates, and as candidates themselves, yet remain a sorely understudied topic in political science. Through a multimethod approach that includes qualitative analysis, novel public opinion surveys, and survey experiments, this book assesses whether Americans are more likely to vote for celebrities than well-known traditional politicians and the implications of these preferences for democracy in the U.S. Perfect for students, scholars, and interested citizens, *Star Power* looks at the contemporary American political landscape through new lenses of research as well as popular appeal.

i hate politics podcast: Muscle Man Jordan Castro, 2025-09-09 A hilarious, suspenseful metaphysical thriller following a day in the life of an English professor who would rather be lifting weights from the author of the cult hit *The Novelist* Harold, a middling literature professor at a liberal arts college, lives in a state of dissatisfaction and fear. His colleagues and students evoke nothing but disgust and disdain. None of them understand strength, power, and spiritual actualization like he does. His university's campus—seemingly picturesque—constantly threatens to reveal something sinister. Over the course of a single afternoon, he wanders the halls, sits in meetings, steals from a student, and goes to the gym—all while reflecting on his professional and existential situation. With every line of Harold's frenetic consciousness, his mundane routine transforms into something more foreboding, culminating in an ingenious twist. Brilliantly imagined and darkly funny, *Muscle Man* is as much a critique of resentment and contemporary masculinity as a satire on the state of higher education, exploring weakness and strength, rationality and irrationality, the spirit and the flesh, and the individual and the collective. With his minute-to-minute occupation of Harold's existential disquietude, Castro imbues the novel's philosophical inquiries with

thrilling suspense. Is Harold a raving lunatic whose disdain stems from his own perilous inadequacies, or is there something truly sinister about his colleagues? When all is said and done, is strength a virtue, or a mirage?

Reminders for the Grieving Christian is for you. In this book, Dr. Pamela Q. Fernandes talks about how you can remain in God's love and make it through this winter of grief. As a follow up book in her Ten Reminder Series, she talks about her own struggles with her faith as she grieved the loss of her father, Richard Fernandes. She explains how long and how far she's come through the mind-numbing pain of grief. By God's grace, she wrote a book to help others on their journey knowing fully well that you can never completely move on but heal only by trusting Jesus. Are you a grieving Christian looking for answers? Then this book might help you.
