i am the law of moses episode: Jesus and the Law of Moses Paul T. Sloan, 2025-08-19 Jesus regularly engaged the Law and its interpretation in his interactions with both crowds and other teachers. While many scholars have interpreted his teaching as criticizing legalism, nationalism, or external piety, in this groundbreaking study of Jesus and the Law in the Synoptic Gospels, Paul Sloan suggests an alternative. Putting the Gospels in conversation with other early Jewish sources, Sloan argues that the proper framework for understanding Jesus's legal instruction is his announcement of Israel's covenantal restoration. In this context, the Gospels depict Jesus as the divinely commissioned herald of the restoration and the authoritative interpreter of the Law, criticizing misinterpretation and transgression--not legalism, nationalism, and external rituals. From this perspective, Jesus's disputes with contemporaries constitute intramural debates about the Law's interpretation and proper observance. Sloan also shows how Jesus's action in the temple and his crucifixion are better understood within this restorationist context, and he concludes by examining the congruity between Jesus's teaching of the Law and the use of the Law in Acts and in Paul's

Letters. This thorough study contributes to the ongoing discussion of Jesus and the Law in the first-century Jewish context. It will challenge students of the Gospels and readers of the broader New Testament to reconsider some common misunderstandings of the Law and its reception in early Christianity.

i am the law of moses episode: Homicide in the Biblical World Pamela Barmash, 2005

Homicide in the Biblical World analyses the treatment of homicide in the Hebrew Bible and demonstrates that it is directly linked to the unique social structure and religion of ancient Israel. Close parallels between biblical law and ancient Near Eastern law are evident in the laws of the ox that gored and the pregnant woman who is assaulted, but, when the total picture of the process by which homicide was adjudicated comes into view, what is most noticeable is how little of it is similar to ancient Near Eastern law. This book reconstructs biblical law from both legal texts and narrative texts and analyses both the law collections and documents from actual legal cases from the ancient Near East.

i am the law of moses episode: Two Guides for the Journey Sheryl Overmyer, 2016-10-27

Thomas Aquinas and William Langland inherited the dynamic metaphor of journeying as a fundamental concept of the Christian life and harnessed it to animate their magisterial texts: the Summa Theologiae and Piers Plowman. Christians' journey back to God consists in the way of charity, yet it is far from straightforward or sequential. Rather, it is impinged upon by epistemic ambiguity, our willful continued habits of resistance, and inherent limitations on our perfection. In

sum, the virtues are divine gifts humanly received, treasure in earthen vessels. Together these authors show the complexity we ourselves will find along this life's journey, enable our understanding to appreciate that complexity, and in limited ways cultivate in us the virtues they describe.

i am the law of moses episode: Exodus 1-15 Helmut Utschneider, Wolfgang Oswald, 2014-11-20 This commentary interprets the first part of the book of Exodus, through 15:21. It features two approaches. On the one hand, the commentary interprets the final form of the traditional Hebrew text synchronically by means of form criticism and modern literary methods. On the other hand, it diachronically reconstructs the predecessors of the final form, from its origins in an exodus composition that opposes political domination to the text's final form as a dramatic narrative about the transfer of sovereignty from the Pharaoh to the God of Israel. Concluding syntheses examine the relationship between these two interpretive approaches while adding reflections on traditional and contemporary concerns.

i am the law of moses episode: God's Word in Human Words Kenton L. Sparks, 2008-03-01 The conclusions of critical biblical scholarship often pose a disconcerting challenge to traditional Christian faith. Between the two poles of uncritical embrace and outright rejection of these conclusions, is there a third way? Can evangelical believers incorporate the insights of biblical criticism while at the same time maintaining a high view of Scripture and a vital faith? In this provocative book, Kenton Sparks argues that the insights from historical and biblical criticism can indeed be valuable to evangelicals and may even yield solutions to difficult issues in biblical studies while avoiding pat answers. This constructive response to biblical criticism includes taking seriously both the divine and the human aspects of the Bible and acknowledging the diversity that exists in the biblical texts.

i am the law of moses episode: Great Trials and the Law in the Historical Imagination Russell L. Dees, 2022-07-29 Great Trials and the Law in the Historical Imagination: A Law and Humanities Approach introduces readers to the history of law and issues in historical, legal, and artistic interpretation by examining six well-known historical trials through works of art that portray them. Great Trials provides readers with an accessible, non-dogmatic introduction to the interdisciplinary 'law and humanities' approach to law, legal history, and legal interpretation. By examining how six famous/notorious trials in Western history have been portrayed in six major works of art, the book shows how issues of legal, historical, and artistic interpretation can become intertwined: the different ways we embed law in narrative, how we bring conscious and subconscious conceptions of history to our interpretation of law, and how aesthetic predilections and moral commitments to the law may influence our views of history. The book studies well-known depictions of the trials of Socrates, Cicero, Jesus, Thomas More, the Salem 'witches', and John Scopes and provides innovative

analyses of those works. The epilogue examines how historical methodology and historical imagination are crucial to both our understanding of the law and our aesthetic choices through various readings of Harper Lee's beloved character, Atticus Finch. The first book to employ a 'law and humanities' approach to delve into the institution of the trial, and what it means in different legal systems at different historical times, this book will appeal to academics, students and others with interests in legal history, law and popular culture and law and the humanities.

i am the law of moes episode: Jesus on Stage Philip Oakeshott, 2015-01-07 Jesus on Stage argues that the Gospel of John is, in its present form, an ancient historical novel, but that the evangelists first version was his own draft for a Greek play. The development of Greek drama at Athens is briefly described, with new suggestions on some details, and the continuing influence of the great Greek tragedians in the 1st Century AD is shown. Then the internal evidence in the gospel which points to an earlier draft play is marshalled: not merely dramatic scenes, some of which echo Sophocles, but speeches only appropriate to the stage, puzzling features which make sense if they were devised with theatrical presentation in mind, others which suggest the chorus of a play; and a drastic reshaping of the Synoptic storyline to centre the whole work on Jerusalem, with a Jesus who resembles the hero of a play. All this has later been expanded to form a novel, including incidents in the mystery and suspense tradition beloved by ancient novelists. But the book is not only for scholars; anyone re-examining John's gospel from this standpoint will find new depths in the evangelists seldom historical but deeply spiritual creation.

i am the law of moes episode: Creation, Nature and Hope in 4 Ezra Jonathan A. Moo, 2011-05-18 This exegetical study of creation and nature in 4 Ezra argues that this first-century Jewish apocalypse's profound pessimism concerning humankind and the present age is matched by a surprisingly robust belief in the goodness of the created order. 4 Ezra presents the natural world as standing with God over and against corrupt humankind, envisions substantial elements of continuity between the ages and hints that those parts of the earth that remain unsullied by humankind still witness to God's sovereignty, love and justice and even serve as material pointers to the new creation. This study calls into question the persistent assumption that apocalypticism and the 'apocalyptic eschatology' of the historical apocalypses in particular necessarily entails a profound dualism. Emerging as it does from an experience of historical disaster and unresolved questions of theodicy, 4 Ezra especially is often considered an apocalypse in which the doctrine of the two ages has been radicalised to the extent that creation, history and life in this world have lost their meaning or significance. The results of this study, however, indicate that while 4 Ezra considers the world of humankind to be corrupted and corrupting, in the natural world the creator's sovereignty is not so obscured, and there his original intentions for creation can still be perceived. This study provides a fresh reading of 4 Ezra that takes seriously the book's unity and coherence. Its conclusions suggest that it may be best to abandon the label 'apocalyptic eschatology' given its potential mask the interesting complexities and mix of continuity and discontinuity that attend the portrayal of creation, nature and hope in an apocalypse like 4 Ezra.
