i have a dream speech images: Obama and The End of the American Dream Michael A. Peters, 2012-09-07 The American Dream that crystallized around James Truslow Adams' The Epic of America originally formulated in the early 1930s and was conditioned by a decade of complexity and contradiction, of big government projects, intensely fierce nationalism, the definition of the American way, and a distinctive collection of American iconic narratives has had the power and force to successively reshape America for every new generation. Indeed, Adam's dream of opportunity for each according to ability or achievement shaped against the old class culture of Europe emphasizes a vision of social order in which each person can succeed despite their social origins. Barack Obama, a skillful rhetorician and intelligent politician, talks of restoring the American and has used its narrative resources to define his campaign and his policies. In a time of international and domestic crisis, of massive sovereign debt, of the failure of neoliberalism, of growing inequalities, the question is whether the American Dream and the vision of an equal education on which it rests can be revitalized.

i have a dream speech images: Images of Utopia in the Advertising Page Luigi Manca, Alessandra Manca, 2024-11-19 In this book, Luigi Manca and Alessandra Manca examine the use of utopian imagery in magazine advertisements from the 1970s through the early 2020s. Positing that these advertisements reflect the public's unbridled desires, rather than reality itself, the authors argue that these idealistic reflections can lead the public to be unable or unwilling to recognize real threats to democracy, social justice, and the environment. They extend this analysis to argue that political moderates have long underestimated the ability of mass media and charismatic, radical politicians to tap into the utopian dreams of millions of disillusioned—and predominantly white—Americans to leverage these dreams in order to further their own political agendas.

Ultimately, this cumulative study spanning decades of advertisement history portrays a consumer utopia shaped almost exclusively by unrestrained consumer desire.

i have a dream speech images: **Dramatic Experiments** Eyal Peretz, 2013-09-26 Dramatic Experiments offers a comprehensive study of Denis Diderot, one of the key figures of European modernity. Diderot was a French Enlightenment philosopher, dramatist, art critic, and editor of the first major modern encyclopedia. He is known for having made lasting contributions to a number of fields, but his body of work is considered too dispersed and multiform to be unified. Eyal Peretz locates the unity of Diderot's thinking in his complication of two concepts in modern philosophy: drama and the image. Diderot's philosophical theater challenged the work of Plato and Aristotle, inaugurating a line of drama theorists that culminated in the twentieth century with Bertolt Brecht and Antonin Artaud. His interest in the artistic image turned him into the first great modern theorist of painting and perhaps the most influential art critic of modernity. With these innovations, Diderot provokes a rethinking of major philosophical problems relating to life, the senses, history, and appearance and reality, and more broadly a rethinking of the relation between philosophy and the arts. Peretz shows Diderot to be a radical thinker well ahead of his time, whose philosophical effort bears comparison to projects such as Gilles Deleuze's transcendental empiricism, Martin Heidegger's fundamental ontology, Jacques Derrida's deconstruction, and Jacques Lacan's psychoanalysis.

i have a dream speech images: **Historic Photos of Detroit in the 50s, 60s, and 70s** , 2011-09-20 In 1950 Detroit was the fifth most populous city in the United States with 1.8 million people living within its boundaries. Its downtown streets bustled with activity. Away from the city center, the neighborhoods were vibrant and active. By 1979, however, the Motor City had lost over one third of its residents. Factories, shops, and theaters closed down, businesses moved to the suburbs, neighborhoods began deteriorating, and crime was on the rise. Despite the city's problems, the bonds of friendship and family along with memories of "the good old days" compelled some Detroiters to remain near their roots and continue life as usual in and around the city. Historic Photos of Detroit in the 50s, 60s, and 70s documents what a Metro Detroiter would have experienced through those decades, from the commonplace—like bad traffic and bad weather—to the historic—like a visit from John F. Kennedy and a baseball world championship. In this companion volume to Historic Photos of Detroit, Mary J. Wallace gives readers an inside look at the ups and

downs of one of the most interesting and relevant cities of the twentieth century.

i have a dream speech images: *The Domestication of Martin Luther King Jr.* Lewis V. Baldwin, Rufus Burrow, 2013-07-03 Clarence B. Jones, close King advisor and draft speechwriter, has done much to reinforce a conservative hijacking of King's image with the publication of his controversial books *What Would Martin Say?* (2008) and *Behind the Dream* (2011). King emerges from Jones's books not as a prophetic radical who attacked systemic racial injustice, economic exploitation, and wars of aggression, but as a fiercely conservative figure who would oppose affirmative action and illegal immigration. *The Domestication of Martin Luther King Jr.* offers a critique of Jones's work and the larger effort on the part of right-wing conservatives to make King a useful symbol, or the sacred aura, in a protracted campaign to promote their own agenda for America. This work establishes the need to rethink King's legacy of ideas and activism and its importance for our society and culture. Contributors include: Lewis V.
