im the problem drake leak: I Am Not Your Enemy Reality Winner, 2025-09-16 The story of a patriot who dreamed of serving her country—and was nearly destroyed by it. Reality Winner was a twenty-five-year-old translator for the NSA when she read a classified document revealing what she assumed would make headlines during a time of unprecedented leaking: After blatant lies by the Trump administration and public silence by the NSA, there had in fact been foreign interference in the 2016 US election. In a breach of NSA protocol, she impulsively printed it, smuggled it out of the building, and mailed it to The Intercept, which published it and then promptly informed the NSA. For her crime, she received the longest prison sentence ever imposed on a government-affiliated employee convicted of a single count of leaking classified information and spent more than four years in federal prison. Now, for the first time, Winner tells her own story: her unusual childhood in South Texas, with a brilliant but unstable father whose obsession with politics, ancient history,

philosophy, and religion sparked her own interests in ancient civilizations and the study of foreign languages, including Latin, Arabic, Farsi, Dari, and Pashto; her patriotism, after 9/11, which led her to enlist in the Air Force and join the NSA, where the work she did in the hope of protecting American security was part of the US campaign in Afghanistan; and, most movingly, her life in the American prison system and how it nearly broke her. *I Am Not Your Enemy* is Winner's bold, brave examination of the moral choices that compel us to act, as well as an account of the risks one young woman took to protect her country and the price she paid for it. It is also a powerful argument for standing up for what you believe in during uncertain times—an inspiring message as relevant now as it was when she made her fateful decision.

in the problem drake leak: *Dark Horse* Ralph Reed, 2008-06-03 At the Democratic National Convention in Chicago, California governor Robert Long got robbed. It's a tight race between Long and Senator Salmon Stanley for the Democratic nomination for president. When Stanley triumphs, Long's delegates walk out, the media has a field day, and Long and his team -- including ace political strategist Jay Noble -- pack their bags and go home, knowing that whether Stanley fought fair or not, it's the end of the line. Unless...Would Long consider running as an independent? Independent campaigns of the past, such as those of Ross Perot and Ralph Nader, have been more gesture than genuine threat -- but how might the Internet and modern communications technology change that? And are the American people so disgusted at the partisanship and gridlock of the two-party system -- in particular, is the right wing so fed up with the Republican Party -- that they would vote for an independent? Would Long even be able to get on the ballot in all fifty states? A lively cast of characters struggles with issues of their own: • Michael Kaplan, Senator Stanley's consigliere and alter ego, is a shrewd and ruthless campaigner -- but this time, has he gone too far? Can he avoid being indicted as scandal consumes the campaign? • Harrison Flaherty is the incumbent vice president and the Republican nominee for president. He is confident of victory, but there remain major obstacles to his inauguration -- some that he is aware of, some that he cannot foresee...and some that can kill. • Dr. Andrew Stanton is a mega-church pastor and religious broadcaster whose millions of listeners (and their financial support) give him great influence in Washington. Vice President Flaherty wants and expects Stanton's support...but will Flaherty get it? • Rassem el Zafarshan is in the United States with a band of terrorists, unlimited financing, and only one goal: to create an act of terrorism so horrific that it will make Americans forget about September 11, 2001 -- and bring about war between the United States and Iran. And in this election year, he knows just how to do it. • Claire Long, the wife of the governor, wants revenge against her husband's enemies, so she supports his presidential candidacy without question. But she has just one slight problem... • Jay Noble has met a beautiful young woman who loves him, and he gets a second shot at winning a presidential campaign, one more chance to go out on top. But as the campaign grinds on, he has to wonder: Did he pick the right horse? And is the woman just too good to be true? Author Ralph Reed's many years of political involvement at the highest levels have prepared him to identify and portray in fiction some of the most glaring problems in our current political system -- and to tell that story with characters so true to life that they could well be subjects of a news story.
