Some people have claimed aliens exist and have been responsible for creating great works of wonder, such as the pyramids and crop circles. Others are less sure. independence day movie speech: *Losers* Michael Lewis, 1998-07-28 *Losers* is a wickedly funny, unflinching look at how America really goes about choosing a President. A fresh, hilarious must read... [*Losers*] is a winner.- Time Michael Lewis is a master at dissecting the absurd: after skewering Wall Street in his national bestseller *Liar's Poker*, he packed his mighty pen and set out on the 1996 campaign trail. As he follows the men who aspire to the Oval Office, Lewis discovers an absurd mix of bravery and backpedaling, heroic possibility and mealy-mouthed sound bytes, and a process so ridiculous and unsavory that it leaves him wondering if everyone involved—from the journalists to the candidates to the people who voted—isn't ultimately a loser. The contenders: Pat Buchanan: becomes the first politician ever to choose a black hat over a white one. Phil Gramm: spends twenty million dollars to convince voters of his fiscal responsibility. John McCain: makes the fatal mistake of actually speaking his mind. Alan Keyes: checks out of a New Hampshire hotel and tells the manager another candidate will be paying his bill. Steve Forbes: refuses to answer questions about his father's motorcycles. Bob Dole: marches through the campaign without ever seeming to care.

independence day movie speech: Propaganda, Communication and Empire Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan, to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order. Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media, which, if anything, tend to rue the withdrawals and lionize the suffering of returning troops. This volume investigates the state's role in the dark underbelly of the shortsighted interventionist media narrative, as well as the dehumanizing portrayals of people living in the Afghanistan-Pakistan region. In its opening section, the book critically evaluates the narrative of the Global War on Terror, as well as the wars launched after 9/11 that destabilized the Middle East. The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions. The chapters in the final section re-present specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers, including journalists and Hollywood moviemakers. This book will be of interest to students of propaganda studies, media and communication studies, US foreign policy, and international relations.

independence day movie speech: Blockbuster Tom Shone, 2004-12-07 It's a typical summer Friday night and the smell of popcorn is in the air. Throngs of fans jam into air-conditioned multiplexes to escape for two hours in the dark, blissfully lost in Hollywood's latest glittery confection complete with megawatt celebrities, awesome special effects, and enormous marketing budgets. The world is in love with the blockbuster movie, and these cinematic behemoths have risen to dominate the film industry, breaking box office records every weekend. With the passion and wit of a true movie buff and the insight of an internationally renowned critic, Tom Shone is the first to make sense of this phenomenon by taking readers through the decades that have shaped the modern blockbuster and forever transformed the face of Hollywood. The moment the shark fin broke the water in 1975, a new monster was born. Fast, visceral, and devouring all in its path, the blockbuster had arrived. In just a few weeks *Jaws* earned more than \$100 million in ticket sales, an unprecedented feat that heralded a new era in film. Soon, blockbuster auteurs such as Steven Spielberg, George Lucas, and James Cameron would revive the flagging fortunes of the studios and lure audiences back into theaters with the promise of thrills, plenty of action, and an escape from art house pretension. But somewhere along the line, the beast they awakened took on a life of its own, and by the 1990s production budgets had escalated as quickly as profits. Hollywood entered a topsy-turvy world ruled by marketing and merchandising mavens, in which flops like *Godzilla* made money and hits had to break records just to break even. The blockbuster changed from a major event that took place a few times a year into something that audiences have come to expect weekly, piling into the backs of one another in an annual demolition derby that has left even Hollywood aghast. Tom Shone has interviewed all the key participants -- from cinematic visionaries like Spielberg and Lucas and the executives who greenlight these spectacles down to the effects wizards who detonated the Death Star and blew up the White House -- in order to reveal the ways in which blockbusters have transformed how Hollywood makes movies and how we watch them. As

entertaining as the films it chronicles, Blockbuster is a must-read for any fan who delights in the magic of the movies.

independence day movie speech: Dreams of Leaving and Remaining James Meek, 2019-04-16 The anatomy of Britain on the edge of Brexit, by Orwell Prize winning journalist Since Britain's 2016 referendum on EU membership, the nation has been profoundly split: one side fantasizing that the referendum will never be acted upon, the other entrenched in questionable assumptions about reclaimed sovereignty and independence. Underlying the cleavage are primal myths, deeper histories, and political folk-legends. James Meek, "the George Orwell of our times," goes in search of the stories and consequences arising out of a nation's alienation from itself. In *Dreams of Leaving and Remaining*, Meek meets farmers and fishermen intent on exiting the EU despite the loss of protections they will incur. He reports on a Cadbury's factory shut down and moved to Poland in the name of free market economics, exploring the impact on the local community left behind. He charts how the NHS is coping with the twin burdens of austerity and an aging population. *Dreams of Leaving and Remaining* is urgent reporting from one of Britain's finest journalists. James Meek asks what we can recover from the debris of an old nation as we head towards new horizons, and what we must leave behind. There are no easy answers, and what he creates instead is a masterly portrait of an anxious, troubled nation.
