Ancient and Classical Periods

The indian history of fashion during ancient and classical periods reflects simplicity combined with elegance, where clothing was primarily draped rather than stitched. Early references from the Indus Valley Civilization (circa 3300-1300 BCE) show evidence of cotton cultivation and weaving, laying the foundation for India's textile industry. Clothing during the Vedic period consisted mainly of unstitched garments such as the dhoti for men and the sari for women, often made from cotton and wool.

Indus Valley Civilization and Early Textiles

The Indus Valley Civilization was one of the earliest to develop sophisticated textile production. Archaeological findings include cotton fibers and spindle whorls, indicating advanced spinning and weaving techniques. Clothing was typically simple, functional, and suited to the hot climate.

Vedic and Epic Period Clothing

During the Vedic period, clothing was closely tied to social and religious practices. The dhoti, uttariya (upper cloth), and sari became prevalent. Textiles were often dyed with natural colors, and ornamentation included jewelry and elaborate hairstyles. These garments embodied cultural identity and status.

Gupta Period and Classical Elegance

The Gupta period (circa 320-550 CE) is often regarded as a golden age for Indian art and culture, reflected in fashion as well. The use of silk became popular, and clothing styles became more elaborate with embroidered borders and rich colors. Sculptures and paintings from this era depict women in finely draped saris and men in decorated dhotis, highlighting the sophistication of Indian attire.

Mughal Era and Its Influence

The Mughal period (16th to 19th century) introduced a new dimension to the Indian history of fashion through the fusion of Persian aesthetics with Indian traditions. This era is renowned for luxurious fabrics, intricate embroidery, and the development of tailored clothing, which contrasted with the earlier prevalence of draped garments.

Introduction of Tailored Clothing

Mughal rulers popularized stitched garments such as the jama (a long coat), churidar (tight-fitting trousers), and angarkha (a type of upper garment). These were often made from fine muslin, silk, and brocade, reflecting the opulence of the court. The tailored fit was a significant departure from the loose, draped styles of earlier periods.

Luxurious Fabrics and Embroidery

During the Mughal era, textile art flourished with the use of zari (gold and silver thread) embroidery, intricate beadwork, and rich brocades. The craftsmen produced exquisite textiles such as jamawar and chikankari, which remain popular in traditional Indian fashion today.

Influence on Jewelry and Accessories

Fashion in the Mughal period extended beyond clothing to elaborate jewelry and accessories. The use of precious gems, pearls, and intricate metalwork complemented the garments, creating a complete aesthetic that symbolized wealth and power.

Traditional Textiles and Garments

The Indian history of fashion is deeply intertwined with its textiles, many of which are renowned worldwide for their quality, craftsmanship, and unique techniques. Traditional garments vary widely across regions but often share common traits of intricate design and cultural symbolism.

Famous Indian Textiles

India has produced some of the most famous textiles in the world, including:

- **Banarasi Silk:** Known for its gold and silver brocade work, originating from Varanasi.
- **Kanjeevaram Silk:** A rich silk from Tamil Nadu, marked by vibrant colors and heavy zari.
- **Chikankari:** Delicate hand embroidery from Lucknow.
- **Bandhani:** Tie-dye textile traditionally from Gujarat and Rajasthan.
- **Pashmina:** Fine wool from Kashmir used to make luxurious shawls.

Iconic Traditional Garments

Several garments are emblematic of Indian heritage and remain widely worn:

- **Sari:** A long unstitched cloth draped elegantly around the body, worn primarily by women.
- **Dhoti:** A traditional male garment, a rectangular piece of cloth wrapped around the waist and legs.
- **Salwar Kameez:** A combination of trousers and a tunic, popular across North India and Pakistan.
- **Lehenga Choli:** A skirt and blouse ensemble, often worn during festivals and weddings.
- **Kurta Pajama:** A loose shirt paired with trousers, common in men's everyday and formal wear.

Regional Variations in Indian Fashion

India's vast cultural diversity is reflected in the regional variations of

fashion throughout its history. Each region developed its own distinctive textiles, colors, and styles based on climate, traditions, and local resources.

North Indian Fashion

In North India, heavier fabrics and layered clothing are common due to cooler climates. The use of embroidery techniques like zardozi and gota patti is prevalent. Traditional attire includes the salwar kameez for women and sherwanis for men, often worn during special occasions.

South Indian Fashion

South Indian fashion is noted for its simplicity and elegance, with cotton and silk saris being the staple. The Kanjeevaram silk sari is a hallmark of this region, known for its durability and vibrant designs. Men traditionally wear veshti or dhoti, often in white or cream colors.

East Indian Fashion

The eastern states are famous for handwoven textiles such as Assam silk and Bengal's tant sari. The traditional dress in this region often includes the sari with unique draping styles and the dhoti for men. The use of red and white in saris is culturally significant, especially in Bengali traditions.

West Indian Fashion

Western India, including Gujarat and Rajasthan, is renowned for colorful textiles and mirror work. Bandhani tie-dye and embroidered garments are popular. Women often wear ghagra choli with heavy jewelry, reflecting the vibrant folk culture of the region.

Modern Indian Fashion and Global Impact

Contemporary Indian fashion blends traditional elements with global trends, creating a dynamic and evolving style landscape. Indian designers have gained international acclaim by incorporating indigenous techniques and motifs into modern silhouettes.

Fusion of Traditional and Contemporary Styles

heritage while embracing global fashion.

indian history of fashion: *Locating Pleasure in Indian History*, 2021-07-30 Locating Pleasure in Indian History is one of the first works on the subject of the 'discourse of pleasure' in Indian history and culture. A rigorous, source-based work, it examines the cultural practices and the underlying philosophic matrix of pleasures, big or small. It recovers the production and consumption of beauty, desire and gratification in the world of pleasure, pleasurable pursuits and pleasant

experiences of viewing, performing, thinking, debating, cooking, eating, listening, writing, creating and procreating. The contributions retrieve the discourse of pleasure in visual and literary cultures-in elite and popular spheres, including the public and private domains of the bazaar, the temple, the household, the court and the garden. Further, it is examined in the urbane art of Mathura, Ravana's palace in the art of 7th CE western Deccan, the suratkhana of Rajput royalty or domestic pleasures of women in the labyrinths of the Puranas. With over 40 photographs, it historicises ideological and experiential conundrums thrown up by the idea of pursuing alimentary, carnal and even pious desires in visual and literary cultures. The reflexivity inherent in the work of artists, poets, dramatists and even shastrins is brought out through moments of pleasure and counter-pleasure as revealed through anecdotes, narratives, artefacts and objects of aesthetic gratification.

indian history of fashion: Luxury Indian Fashion Tereza Kuldova, 2016-03-24 This unique ethnographic investigation examines the role that fashion plays in the production of the contemporary Indian luxury aesthetic. Tracking luxury Indian fashion from its production in village craft workshops via upmarket design studios to fashion soirées, Kuldova investigates the Indian luxury fashion market's dependence on the production of thousands of artisans all over India, revealing a complex system of hierarchies and exploitation. In recent years, contemporary Indian design has dismissed the influence of the West and has focused on the opulent heritage luxury of the maharajas, Gulf monarchies and the Mughal Empire. Luxury Indian Fashion argues that the desire for a luxury aesthetic has become a significant force in the attempt to define contemporary Indian society. indian history of fashion: In American Fashion Natalie Nudell, 2024-08-22 In American Fashion is the first scholarly analysis of the Fashion Calendar, the unique scheduling service and trade publication for the American fashion and creative industries between 1941 and 2014. Published by Ruth Finley for almost seven decades, the Calendar had an extensive impact on the development of the American fashion industry in the 20th century. Unlike European fashion capitals, the American fashion industry relied on an independent small publisher to manage the schedule of an ever-growing industry. In American Fashion shows how this independent position influenced the democratic approach reflected in the industry in the United States. Finley's unique contribution to the development of the time-system and culture of American fashion made her a key player during the ascendancy of American fashion design. Natalie Nudell unveils the Fashion Calendar as a historical archive, and also looks at its development into an open-source digital humanities project (to be released in November 2023). Through historical analysis and the upcoming digitization of the Ruth Finley Collection, this study unpacks the history and impact of the publication and the women behind it.

indian history of fashion: Clothing Gandhi's Nation Lisa N. Trivedi, 2007-06-14 In Clothing Gandhi's Nation, Lisa Trivedi explores the making of one of modern India's most enduring political symbols, khadi: a homespun, home-woven cloth. The image of Mohandas K. Gandhi clothed simply in a loincloth and plying a spinning wheel is familiar around the world, as is the sight of Gandhi, Jawaharlal Nehru, and other political leaders dressed in Gandhi caps and khadi shirts. Less widely understood is how these images associate the wearers with the swadeshi movement -- which advocated the exclusive consumption of indigenous goods to establish India's autonomy from Great Britain -- or how khadi was used to create a visual expression of national identity after Independence. Trivedi brings together social history and the study of visual culture to account for khadi as both symbol and commodity. Written in a clear narrative style, the book provides a cultural history of important and distinctive aspects of modern Indian history.

indian history of fashion: Wild Frenchmen and Frenchified Indians Sophie White, 2013-01-14 Based on a sweeping range of archival, visual, and material evidence, *Wild Frenchmen and Frenchified Indians* examines perceptions of Indians in French colonial Louisiana and demonstrates that material culture—especially dress—was central to the elaboration of discourses about race. At the heart of France's seventeenth-century plans for colonizing New France was a formal policy—Frenchification. Intended to turn Indians into Catholic subjects of the king, it also carried with it the belief that Indians could become French through religion, language, and culture. This fluid and mutable conception of identity carried a risk: while Indians had the potential to become French, the French could themselves be transformed into Indians. French officials had effectively admitted defeat of their policy by the time Louisiana became a province of New France in 1682. But it was here, in Upper Louisiana, that proponents of French-Indian intermarriage finally claimed some success with Frenchification. For supporters, proof of the policy's success lay in the appearance and material possessions of Indian wives and daughters of Frenchmen. Through a sophisticated interdisciplinary approach to the material sources, *Wild Frenchmen and Frenchified Indians* offers a distinctive and original reading of the contours and chronology of racialization in early America. While focused on Louisiana, the methodological model offered in this innovative book shows that dress can take center stage in the investigation of colonial societies—for the process of colonization was built on encounters mediated by appearance.
