meditation by marcus aurelius: The Meditations of Marcus Aurelius Marcus Aurelius, 2017-04-29 About Marcus Aurelius *Meditations* *Meditations* is a series of personal writings by Marcus Aurelius, Roman Emperor from 161 to 180 AD, recording his private notes to himself and ideas on Stoic philosophy. Marcus Aurelius wrote the 12 books of the *Meditations* in Koine Greek as a source for his own guidance and self-improvement. It is possible that large portions of the work were written at Sirmium, where he spent much time planning military campaigns from 170 to 180. It is unlikely that Marcus Aurelius ever intended his *Meditations* to be published and the work has no official title, so *Meditations* is one of several titles commonly assigned to the collection. These

writings take the form of quotations varying in length from one sentence to long paragraphs. About this translation of Marcus Aurelius Meditations This is the classic and official translation of the Meditations as produced by George Long and originally printed in The Harvard Classics. What you get when you buy this edition of Meditations This edition of Meitations is an 80 page long 9x6 trade paperback edition in creme paper and a black glossy cover. Famous quotes from this edition of Meditations Do not act as if thou wert going to live ten thousand years. Death hangs over thee. While thou livest, while it is in thy power, be good. Why do you hunger for length of days? The point of life is to follow reason and the divine spirit and to accept whatever nature sends you. To live in this way is not to fear death, but to hold it in contempt. Death is only a thing of terror for those unable to live in the present. Pass on your way, then, with a smiling face, under the smile of him who bids you go. Do not then consider life a thing of any value. For look at the immensity of time behind thee, and to the time which is before thee, another boundless space. In this infinity then what is the difference between him who lives three days and him who lives three generations? TA cucumber is bitter. Throw it away. There are briars in the road. Turn aside from them. This is enough. Do not add, And why were such things made in the world? If thou art pained by any external thing, it is not this that disturbs thee, but thy own judgment about it. And it is in thy power to wipe out this judgment now. What a reader says about Marcus Aurelius Meditations We find several recurring themes in The Meditations: develop self-discipline to gain control over judgments and desires; overcoming a fear of death; value an ability to retreat into a rich, interior mental life (one's inner citadel); recognize the world as a manifestation of the divine; live according to reason; avoid luxury and opulence. But generalizations will not approach the richness and wisdom nuggets a reader will find in Marcus's actual words.-Glenn Russel

Uncover what made them tick? See what motivated them? Learn to understand why they made the decisions they made? Emperor Marcus Aurelius' *Meditations* allow you to do just that, and the wisdom found in them is astounding--From Dr. Phillips's Introduction. At the peak of the Roman empire, leading the Western world's most sophisticated military force against the barbarians, Emperor Marcus Aurelius began jotting down meditations on the insignificance of the material world and the importance of keeping a right and sober mind. meditation by marcus aurelius: **Meditations: with selected correspondence** Robin Hard, 2011-09-15 'Do not act as if you had ten thousand years to live ... while you have life in you, while you still can, make yourself good.' The *Meditations of Marcus Aurelius* (AD 121-180) is a private notebook of philosophical reflections, written by a Roman emperor probably on military campaign in Germany. In short, highly charged comments, Marcus draws on Stoic philosophy to confront challenges that he felt acutely, but which are also shared by all human beings - the looming presence of death, making sense of one's social role and projects, the moral significance of the universe. They bring us closer to the personality of the emperor, who is often disillusioned with his own status and with human activities in general; they are both an historical document and a remarkable spiritual diary. This translation by Robin Hard brings out the eloquence and universality of Marcus' thoughts. The introduction and notes by Christopher Gill place the *Meditations* firmly in the ancient philosophical context. A selection of Marcus' correspondence with his tutor Fronto broadens the picture of the emperor as a person and thinker. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading

authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.
