meditation retreats in india: The Routledge Handbook of Religious and Spiritual Tourism Daniel H. Olsen, Dallen J. Timothy, 2021-07-29 The Routledge Handbook of Religious and Spiritual Tourism provides a robust and comprehensive state-of-the-art review of the literature in this growing sub-field of tourism. This handbook is split into five distinct sections. The first section

covers past and present debates regarding definitions, theories, and concepts related to religious and spiritual tourism. Subsequent sections focus on the supply and demand aspects of religious and spiritual tourism markets, and examine issues related to the management side of these markets around the world. Areas under examination include religious theme parks, the UNESCO branding of religious heritage, gender and performance, popular culture, pilgrimage, environmental impacts, and fear and terrorism, among many others. The final section explores emerging and future directions in religious and spiritual tourism, and proposes an agenda for further research. Interdisciplinary in coverage and international in scope through its authorship and content, this will be essential reading for all students, researchers, and academics interested in Tourism, Religion, Cultural Studies, and Heritage Studies.

meditation retreats in india: Religious Journeys in India Andrea Marion Pinkney, John Whalen-Bridge, 2018-08-20 Explores how religious travel in India is transforming religious identities and self-constructions. In an increasingly global world where convenient modes of travel have opened the door to international and intraregional tourism and brought together people from different religious and ethnic communities, religious journeying in India has become the site of evolving and often paradoxical forms of self-construction. Through ethnographic reflections, the contributors to this volume explore religious and nonreligious motivations for religious travel in India and show how pilgrimages, missionary travel, the exportation of cultural art forms, and leisure travel among coreligionists are transforming not only religious but also regional, national, transnational, and personal identities. The volume engages with central themes in South Asian studies such as gender, exile, and spirituality; a variety of religions, including Sikhism, Islam, Buddhism, and Christianity; and understudied regions and emerging places of pilgrimage such as Manipur and Maharashtra. [It]s rare to find such diverse accounts of religious travel collected in a single volume, where scholars' engagements with individual places of pilgrimage in India and with the journeys surrounding them are truly in conversation with one another. For readers, it makes for a deeply enlightening journey. It also raises an interesting question: Is the reality of India powerful enough that it absorbs divergent expressions of religious tourism, making of them a common fabric? Here, so unusually, readers have the materials to decide. [] John Stratton Hawley, author of *A Storm of Songs: India and the Idea of the Bhakti Movement*

Her honesty in not attempting to glamorize the awakening attests to its authenticity. meditation retreats in india: The Indian Hospitality Industry Sandeep Munjal, Sudhanshu Bhushan, 2017-08-30 India has been in transition for the last two decades, moving from a mixed economy toward a market economy model, and the Indian hospitality industry is metamorphosing into a mature industry. It is time that the story of the Indian hospitality industry is told. The Indian Hospitality Industry: Dynamics and Future Trends tells that story, one defined by the industry's push for growth in revenues and the struggle to match the revenue growth with profitability. The volume includes a selection of insightful chapters that offer research into the multiple dimensions of the Indian hospitality industry. The book covers many segments of the hospitality sector, including hotels, events and catering businesses, and restaurants and coffee shops, both domestic and small mom-and-pop businesses as well as international chains. The opening chapters set the tone for providing an overarching perspective on the status of the industry in terms of the macroeconomic variables and how they may have impacted the health of hospitality businesses in India. The book then goes on to explore a wide variety of issues. The editors and chapter authors are either practitioners themselves or researchers, looking at both domestic and international hospitality business in India and a wide variety of economic factors. The information divulged here will be important for stakeholders, which includes domestic and international hospitality professionals, business leaders, investors, and those in governmental positions, especially in the tourism ministry. The volume informs on the issues and challenges that the hospitality industry in India is up against. The book looks at the dilemma of a industry that responded to the demand growth promise by ramping up supply, only to find that the investments made were received by an actual growth that was way shy of forecasts and left investors with unexpected losses on their profit & loss statements and bloodied balance sheets.

meditation retreats in india: Guide to Buddhist Sites in the Indian Subcontinent Joy Bose, Siva Prasad Bose, 2023-07-14 The Indian subcontinent is the birthplace of Buddhism. Here is where the Buddha was born, where he lived and died. Here is where the first Buddhist councils were established, where the first monks practiced meditation, where the first stupas were built, where the great monasteries like Nalanda were established, where scholars from elsewhere in the Buddhist world came to learn Buddhism and so on. The earliest historical sites related to Buddhism were here too. In this book we provide an overview of historical sites related to Buddhism in the Indian subcontinent: including India, Sri Lanka, Pakistan, Bangladesh, Bhutan and Nepal. Here too, we only mention some of the most important sites, for listing out all sites related to Buddhism is virtually impossible on account of their great number. We have also covered holy sites belonging to all the important sects of Buddhism, including Theravada and Mahayana and Vajrayana or Tibetan Buddhism. Our preference is to focus on historically important and more famous sites. For the purposes of this book, we leave out other important Asian Buddhist countries such as Myanmar, Thailand, Vietnam, Cambodia, China and Japan for now. We will consider covering those sites in a separate book at a later time. For the purpose of covering the sites, we group them based on proximity. The author has personally visited most of the sites mentioned in this book in India, Sri Lanka and Nepal. The aim of this book is to provide the prospective traveler and pilgrim an overview of the sites so that they too can visit and see for themselves.

meditation retreats in india: The Beginning Is Near Em Merson PhD, 2021-10-13 This book is quasi-autobiographical, leaning on links to music from the sixties, seventies, eighties, and nineties. Woven throughout are references to self-isolation in lockdown, a journey through the dark night of the soul toward enlightenment, and a growing awareness that those of us who open our hearts to

peace and love are being called on to offer it now. I share a journal about love and loss—sudden separation from a long-term relationship—and the aftermath, leading to a new beginning. I provide ideas to support transformation from books, websites, music, some wild metaphysical blogs, and YouTube videos if publicly available—check for links in the ebook by tapping or clicking on the titles that are bold and italicized. The pivotal piece in this book is that I've used the music and techniques to transform my life and access wisdom, joy, and bliss. This inner change has led to outer change, impacting my understanding of reality and the nature of the COVID-19 phenomenon. There are some twists in this story I could never have predicted. Truth is stranger than fiction.

In addition to being a great scholar and contemplative, he was also a great bodhisattva, or mahāsattva, who inspired countless people to devote themselves to the practice of Dharma, with a special emphasis on Dzokchen. Like his predecessor, Dūdjom Lingpa, Dūdjom Rinpoché was also a great tertön, or treasure revealer, as illustrated in his root verses, which form the basis of his commentary in this volume. The treasures revealed by Dūdjom Lingpa and Dūdjom Rinpoché together form what is known as the Dūdjom Tersar - the New Treasure tradition of the Dūdjom lineage-which in turn was passed on to Gyatrul Rinpoché, as well as many other distinguished lamas who became disciples of Dūdjom Rinpoché. Within this book, you will find Dūdjom Rinpoché's pith instructions in the form of root verses, entitled Guidance Transmitted One-on-One to Those of Good Fortune. These verses are actually part of a much larger cycle of treasure texts revealed by Dūdjom Rinpoché on the wrathful manifestation of Padmasambhava known as Dorjé Drolö. Dūdjom Rinpoché's autocommentary on these pith instructions, entitled The Illumination of Primordial Wisdom, forms the core of this volume. I have provided my own commentary on his root texts with the intention to help illuminate this path of the Great Perfection and inspire you to devote yourself to this greatest of all journeys. My own understanding, which I will share with you here, has been informed and inspired by the core teachings and guidance I've received from my lamas, who have led me toward this path of irreversible transformation - namely, His Holiness the Dalai Lama, Gyatrul Rinpoché, Yangthang Rinpoché, Drupön Lama Karma, and many others--

meditation retreats in india: An Indian Tantric Tradition and Its Modern Global Revival D.E. Osto, 2020-03-06 This book analyzes the contemporary global revival of Nondual Śaivism, a thousand-year-old medieval Hindu religious philosophy. Providing a historical overview of the seminal people and groups responsible for the revival, the book compares the tradition's medieval Indian origins to modern forms, which are situated within distinctively contemporary religious, economic and technological contexts. The author bridges the current gap in the literature between insider (emic) and outsider" (etic) perspectives by examining modern Nondual Śaivism from multiple standpoints as both a critical scholar of religion and an empathetic participant-observer. The book explores modern Nondual Śaivism in relation to recent scholarly debates concerning the legitimacy of New Age consumptive spirituality, the global spiritual marketplace and the contemporary culture of narcissism. It also analyzes the dark side of the revived tradition, and investigates contemporary teachers accused of sexual abuse and illegal financial activities in relation to unique features of Nondual Śaivism's theosophy and modern scholarship on new religious movements (NRMs) and

cults. This book shows that, although Kashmir Śaivism has been adopted by certain teachers and groups to market their own brand of High Tantra, some contemporary practitioners have remained true to the system's fundamental tenets and teach authentic (albeit modern) forms of Nondual Śaivism. This book will be of interest to academics in the fields of religion and Asian philosophies, especially South Asian, tantric, neo-tantric and yoga philosophies, alternative and New Age spiritualities, religion and consumerism, and NRMs and cults. Winner of the inaugural 2021 New Zealand Asia Society Book Award, second prize.
