It's a three-week program to reset your entire approach to food and eating. You'll discover why sugar makes you fat (and sick), where it's lurking, and how to live happier and healthier without it. As the former Editor-in-Chief of Women's Health and Cosmopolitan, Michele Promaulayko has spent the last decade at the forefront of the newest research about how sugar and artificial sweeteners affect your mind and body. What she discovered was that added sweeteners are at the center of every major and minor health crisis, from the ones you'd guess—like obesity, heart disease, and diabetes—to the ones that might surprise you, like

acne, bad moods, digestion, and sleep loss. Giving up these “added sugars” can lead to weight loss and decreased diabetes risk, sure, but also better skin, better moods, and thicker hair. Even if your baseline is “I feel OK,” you don’t know how much better you could be feeling once off the sweet stuff. Within just days, Sugar Free 3 users began to see and feel results: smoother, glowing skin, greater energy and clarity of thought, improved mood, better digestion and less bloat, better sleep, and significant weight loss—up to 7 pounds in the first week! “Michele has created a plan that’s easy, effective, and for everyone. In just days, you’ll feel better and look better than you ever have before!” says David Zinczenko, founder of Eat This, Not That! 5 THINGS YOU NEED TO KNOW 1. It’s Simple and it’s Doable So You Will Stick with It! 2. You’ll Never Feel Hungry! 3. Carbs Are Allowed! 4. No Calorie Counting—Ever! 5. You Don’t Have to Exercise!
