These parties often reflect broad coalitions of ethnic, regional, and ideological interests and are central players in national elections and policy-making.

All Progressives Congress (APC)

The All Progressives Congress (APC) is one of the two dominant political parties in Nigeria. Formed in 2013 through the merger of several opposition parties, the APC positions itself as a progressive and reform-oriented party. It currently holds significant power at both federal and state levels, advocating for economic reform, anti-corruption measures, and national unity.

Peoples Democratic Party (PDP)

The Peoples Democratic Party (PDP) was Nigeria's ruling party from 1999 to 2015 and remains a major force in Nigerian politics. Known for its broad-based appeal, the PDP champions policies of economic liberalization and social welfare. It has a wide network of supporters across Nigeria's geopolitical zones and continues to be a key opposition party.

For instance, political coalitions in the Niger Delta area focus on resource control and environmental issues, while northern political associations emphasize security and education policies tailored to their region.

Impact on National Unity

While ethnic and regional political groups promote inclusivity for their members, they sometimes pose challenges to national unity by fostering sectionalism. Balancing these interests is a continuous challenge for Nigeria's political system.

political groups in nigeria: TOPICAL ISSUES IN NIGERIA'S POLITICAL DEVELOPMENT J.

ISAWA ELAIGWU, 2012-06-20 Nigerians love to debate. Even under colonial rule, the authorities realised that Nigerians could not be repressed and that they always expressed their views on topical issues of development. The topical issues that have driven Nigeria's political economy include Constitution and Constitutionalism, Democracy, the National Question, Civil-Military Relations, Federalism, State and Nation-Building, Local Governance, Leadership, the Role of Traditional Rulers, the Economy and Religion. This volume is a selection of some of Professor Elaigwu's contributions to these debates. In it, Elaigwu, a leading Nigerian political scientist, argues that the challenges facing the country are not unsurmountable and that Nigerians must take the destiny of their country in their hands and look inwards to deal with the country's weaknesses while strengthening her capacity and resolve to become an industrialised and powerful country within a limited space of time.

political groups in nigeria: *National Integration and Rotational Presidency in Nigeria*

Olumuyiwa Temitope Faluyi, 2023-10-27 This book engages literature and opinions of politicians, opinion leaders, religious leaders, lawyers and researchers on national integration in Nigeria. In addition to rotational presidency, participants interviewed by the author also express views on other national integration measures in Nigeria. The monograph represents a critical work in the field, making a significant contribution to the so-far-lacking literature of fieldwork and scholarship on rotational presidency in Nigeria. The monograph will benefit scholars, researchers, peace and conflict experts, politicians, students and other stakeholders on how national integration can be cultivated and consolidated. Its focus on the Fourth Republic ensures its relevance to the management of political tussles inherent to rotating power in a developing and federal country such as Nigeria.

political groups in nigeria: *Political Parties and the Crisis of Democracy* Thomas Poguntke, Wilhelm Hofmeister, 2024-06-25 Democracy is in decline and the share of world's population living in freedom under democratic government has decreased considerably as authoritarian practices proliferate. Surprisingly, most of the analyses that study these developments give little attention to the role of political parties in the decline of democracy although there is a broad consensus about the relevance of political parties for the functioning of democracy. How parties can contribute to democracy is best understood by looking at a very diverse range of cases in different parts of the world. Instead of taking a regional approach which dominates the literature on political parties, this volume takes a global perspective. It brings together experts from four continents, which opens up fresh comparative perspectives on the role of political parties in the democratic process. *Political Parties and the Crisis of Democracy* asks how parties contribute to the consolidation of democracy, why they fail today, why new parties emerge and displace old parties, and also what parties need to do in order to survive cutthroat competition, above all with a new (and sometimes not so new) variants of populist parties. It takes a unique global focus, covering old and new democracies in different regions of the world. It covers Western and Central Europe, Asia-Pacific, Latin America and Africa, Turkey and Israel, including presidential, semi-presidential, and parliamentary democracies and also some countries where democracy is seriously threatened or eroding. This volume offers unique comparative perspectives combined with a detailed analysis of individual countries and their party systems. It shows that parties are central actors for the consolidation of democracy, but that organisational reforms are necessary to cope with social change such as individualisation, the decline in party membership and the impact of new media and modern communication, thus counteracting the fragmentation of party systems and the decay of democracy. political groups in nigeria: *THE POLITICS OF FEDERALISM IN NIGERIA* J. Isawa Elaigwu, 2017-02-28 Nigerians embraced federalism as a way of managing the conflicts and suspicions among the various constituent nationalities that make up the Nigerian state. These fears and suspicions had led to the emergence of aggressive political and economic competitions along ethno-regional lines. Beginning from 1954, the unitary colonial state saw itself being gradually

federalized as it had to contend with powerful ethno-regional pressures in the run-up to independence in 1960. Following the military coup of 1966, which ushered in a prolonged period of military rule, the various military regimes created a very centralized federal system while they ruled. By 1999 however, Nigerians had become disenchanted with the way the federal system was operated in the country, with echoes of the strident calls for a national conference to re-assess the system and the way it was operated reverberating throughout the entire length and breadth of the country.

political groups in nigeria: *Political Change and Territoriality in Indonesia* Ehito Kimura, 2013-05-07 What makes large, multi-ethnic states hang together? At a time when ethnic and religious conflict has gained global prominence, the territorial organization of states is a critical area of study. Exploring how multi-ethnic and geographically dispersed states grapple with questions of territorial administration and change, this book argues that territorial change is a result of ongoing negotiations between states and societies where mutual and overlapping interests can often emerge. It focuses on the changing dynamics of central-local relations in Indonesia. Since the fall of Suharto's New Order government, new provinces have been sprouting up throughout the Indonesian archipelago. After decades of stability, this sudden change in Indonesia's territorial structure is puzzling. The author analyses this provincial proliferation, which is driven by multilevel alliances across different territorial administrative levels, or territorial coalitions. He demonstrates that national level institutional changes including decentralization and democratization explain the timing of the phenomenon. Variations also occur based on historical, cultural, and political contexts at the regional level. The concept of territorial coalitions challenges the dichotomy between centre and periphery that is common in other studies of central-local relations. This book will be of interest to scholars in the fields of comparative politics, political geography, history and Asian and Southeast Asian politics.

political groups in nigeria: *Anonymous Power* Okechukwu Ibeanu, Israel 'Kelue Okoye, Ikenna Mike Alumona, Ernest Tooichi Aniche, 2022-01-28 This book examines the structures and processes of political decision-making and governance in Nigeria. Since Nigeria returned to elected government in 1999, it has been observed that several factors account for the differences between the design of statutory structures and processes of political decision-making and how they operate in reality. In other words, there are wide gaps between statutes and practice of political decision-making. However, the nexus between the two remains largely understudied by political scientists. Instinctively, political scientists assume that informal influences in political decision-making are aberrations, episodic or temporary. This book is designed to interrogate the nexus between the formal and non-formal dimensions of the dynamics of political decision making in Nigeria and also provide evidence about the actual functioning of governmental structures in Nigeria. The thesis of the book is that the non-formal dimension of political decision making as evidenced in rising ethno-political patronages, religious sentiments, clientelism and factionalism, are interacting with formal decision-making structures in ways that largely undermine the latter and, by extension, the democratic system. The book pursues this thesis by examining the roles of actors and institutions including, electoral choices made by voters, legislations, which perhaps is the most fundamental form of political decision-making, policies made by the executive and administration, as well as decision making within political parties, since parties are sites for articulating and

aggregating issues on which decisions are to be made.
