Overview of the Praxis 5164 Exam

The Praxis 5164 test, also known as the Middle School Mathematics exam, measures the knowledge and skills necessary for teaching mathematics to students in grades 5 through 9. This exam is a requirement in many states for teacher certification and is designed to evaluate both content knowledge and pedagogical skills. The test content covers a wide range of mathematical topics, including number operations, algebra, geometry, data analysis, and probability. It also assesses the ability to apply mathematical knowledge in classroom settings effectively.

Exam Format and Structure

The Praxis 5164 exam consists of approximately 70 selected-response questions, including multiple-choice and numeric entry items. Test-takers are given 2 hours and 30 minutes to complete the exam. The questions are designed to test conceptual understanding, procedural skills, and problem-solving abilities. The exam format requires candidates to demonstrate both mathematical proficiency and instructional knowledge, ensuring they are well-

prepared to teach diverse student populations.
