Overview of the Presidential Management Fellows Program

The Presidential Management Fellows Program is a flagship leadership development initiative designed to attract and develop outstanding graduate students for federal government careers. Established in 1977, the program targets individuals with advanced degrees in various disciplines, seeking to build a cadre of future government leaders. PMFs are placed in federal agencies where they undergo rigorous training, rotational assignments, and leadership development activities. The program typically lasts two years, during which fellows gain valuable managerial experience and exposure to public service.

Eligibility and Selection Process

To qualify for the PMF program, candidates must have completed an advanced degree within the past two years or be in the final year of their graduate studies. The selection process is highly competitive and involves an application, assessment, and an interview phase. Successful applicants

are appointed as fellows and receive placement offers from participating federal agencies. The program emphasizes diversity, inclusion, and leadership potential in its candidate pool.

Purpose and Objectives

The primary goal of the PMF program is to develop a strong pipeline of government leaders who can effectively manage public resources and implement national policies. Fellows receive mentorship, leadership training, and cross-agency experiences that prepare them for executive roles. The program fosters innovation, strategic thinking, and collaboration skills essential for federal management careers.

Presidential Management Fellows Salary Structure

The presidential management fellows salary is determined according to federal government pay scales, specifically the General Schedule (GS) system. PMFs are typically appointed at the GS-9, GS-11, or GS-12 grade levels, depending on their qualifications, experience, and agency needs. The salary range varies based on the grade level and the geographic location of the assignment due to locality pay adjustments.

Base Salary Ranges

The base salary for PMFs varies annually as federal pay rates are adjusted. As of the current pay scale, approximate base salaries are as follows:

- GS-9: \$49,000 to \$64,000 per year
- GS-11: \$58,000 to \$75,000 per year
- GS-12: \$69,000 to \$90,000 per year

Most PMFs start at GS-9 or GS-11, with some entering at GS-12 depending on experience or specialized expertise. These figures represent base pay before locality adjustments.

Locality Pay Adjustments

In addition to base salary, PMFs receive locality pay, which compensates for cost-of-living variations across different geographic areas. For instance, fellows working in high-cost regions like Washington D.C., San Francisco, or New York receive higher pay compared to those in lower-cost areas. Locality adjustments can increase the base salary by 15-30%, significantly impacting the total

compensation package.

Factors Influencing PMF Salary

Several factors affect the presidential management fellows salary, including education level, prior experience, agency policies, and geographic location. Understanding these elements helps candidates gauge potential earnings and negotiate effectively.

Educational Background and Experience

Advanced degrees such as master's or doctoral qualifications may influence the initial grade level and salary. In some cases, candidates with substantial relevant work experience may qualify for higher starting grades and salaries. Agencies evaluate academic credentials alongside professional accomplishments to determine placement.

Agency and Position

The federal agency sponsoring the PMF can also impact salary. Some agencies have unique pay policies or offer additional incentives for hard-to-fill positions or specialized fields like cybersecurity, finance, or healthcare. Job responsibilities and required skills within the fellowship assignment further influence compensation.

Location and Cost of Living

As previously mentioned, locality pay is a significant salary determinant. Urban centers with elevated living costs offer higher pay rates to offset expenses. Candidates should consider the impact of locality adjustments when assessing overall compensation and budgeting for relocation.

Benefits and Additional Compensation

Beyond salary, presidential management fellows receive a comprehensive benefits package typical of federal employees. These benefits enhance the total compensation value and contribute to overall job satisfaction.

Health and Retirement Benefits

PMFs are eligible for federal health insurance plans, including medical, dental, and vision coverage.

They also participate in the Federal Employees Retirement System (FERS), which offers retirement savings options, pension plans, and Social Security benefits. These programs provide long-term financial security for fellows.

Paid Leave and Work-Life Balance

Fellows accrue annual leave, sick leave, and federal holidays, supporting work-life balance. Many agencies offer flexible work schedules, telework opportunities, and employee assistance programs. These benefits contribute to a supportive work environment.

Additional Incentives

Some PMFs may be eligible for bonuses, student loan repayment programs, or recruitment incentives, depending on agency policies and the nature of their assignments. These perks can supplement the base salary and improve overall compensation.

Career Growth and Salary Progression

The presidential management fellows salary is designed to increase over time as fellows gain experience, complete the program, and transition into permanent federal positions. Career progression options are robust, reflecting the program's goal of developing future government leaders.

Advancement Opportunities

Upon successful completion of the PMF program, fellows are often converted to permanent federal roles at higher GS levels, such as GS-13 or GS-14. Promotions come with corresponding salary increases and expanded responsibilities. Agencies encourage continuous professional development to prepare fellows for leadership positions.

Leadership Development and Training

The PMF program includes structured leadership training, mentorship, and rotational assignments that enhance skills and prepare fellows for upward mobility. These experiences position fellows for competitive federal management roles with salaries reflecting their expertise and contributions.

Comparison with Other Federal Positions

When evaluating the presidential management fellows salary, it is helpful to compare it with other entry-level federal positions. PMFs generally receive competitive pay relative to similar roles in the federal government, with added benefits related to leadership development.

Entry-Level Federal Employees

Positions such as recent graduates hired under the Pathways Program or GS-5 and GS-7 levels typically earn lower salaries than PMFs starting at GS-9 or above. The PMF program's emphasis on advanced degrees and leadership potential justifies higher initial compensation.

Mid-Level Federal Managers

While PMFs start at lower grades, their salary trajectory often surpasses that of peers due to accelerated career development. Mid-level managers in federal agencies typically earn salaries ranging from GS-13 to GS-15, reflecting experience and responsibility levels attained after completing the fellowship.

Private Sector Comparison

Although federal salaries may be lower than some private sector roles, the PMF program offers unique benefits, job stability, and opportunities for meaningful public service. Candidates must weigh salary against career growth, benefits, and mission-driven work.

Frequently Asked Questions

What is the starting salary for Presidential Management Fellows (PMF)?

The starting salary for Presidential Management Fellows typically ranges from GS-9 to GS-12 levels, which can be approximately \$56,000 to \$80,000 annually depending on the agency and location.

presidential management fellows salary: *Working for Change* Derick W. Brinkerhoff, Jennifer M. Brinkerhoff, 2005 * A Foreword Magazine Book of the Year Finalist for 2005! * Focuses on development management positions in international service employment * Devises the concept of the service-choice spiral in career evolution * Provides information about volunteer and professional opportunities, organizations, and degree programs In *Working for Change*, Derick and Jennifer Brinkerhoff explore career paths in international public service, focusing on development management positions. They offer practical and inspiring guidance on finding the right mix of public service objectives, degree programs, job opportunities, and personal lifestyle choices. The Brinkerhoffs' concept of career evolution is encapsulated in a framework they call the service-choice spiral. This model rejects standard set-the-goal, plot-the-steps planning and pulls one's personal values, skills, professional goals, and sense of altruism into a solid career choice. Through profiles of six public service professionals, the Brinkerhoffs illustrate how real people have faced the choices that confronted them in the course of their careers. *Working for Change* will assuredly become the ideal guide and resource for anyone considering work in public service and mid-career professionals looking for a change in direction. It will also serve as a powerful resource for university career development officers and faculty advisors. View the entire book online at ebrary.com here.

presidential management fellows salary: *Stepping into the Elite* Jules Naudet, 2018-07-10 The experience of shifting from one social class to another—from a dominated group to a dominant group—raises the question of how the upwardly mobile person relates to his/her group of origin. Stepping into the Elite traces the particular ways in which upwardly mobile people in India, France, and the United States—countries embodying three distinct stratification systems—make sense of this change. Given that people draw upon specific cultural tools or repertoires to analyse their world and situate themselves in it, Naudet identifies the extent to which narratives of 'success' vary from one country to another. For instance, he explains that while stories in a caste-ridden society such as India hinge on the preservation of bonds with the original class, in France, they are centered on the idea that an upwardly mobile person is alienated from all social groups. In the United States, on the other hand, the rhetoric of success is tinged by the ardent belief in the American society being classless. A sociological journey in three different cultural contexts, this book deftly ties the exploration of questions regarding transformation of social identity and views on being successful.
