**swiss a340 business class: A Dragon Defanged** Robert Lockwood, 2012-10-31 Democratic

President Earl Eastwood seeks re-election against the formidable Connecticut Governor Sophia Kallias, a Republican moderate with winning appeal to the critical independent vote. A unified Third World influenced by China offers him the global presidency at the United Nations, if he loses the US race. Eastwood's dependency on China curdles his loyalties. He needs China's endorsement for the UN job. And Chinese foreign investment is the only viable source of job growth in a badly recessed US economy. The Chinese recruit the financial wizardry of Swiss-based Nikos Rallis to fashion a Swiss-Brazilian network of equity funds. The network launders US investments of Chinese-owned Brazilian companies. They covertly acquire control of Canadian and US shale oil and gas stakes and their pipeline conduits. The network then infiltrates critical US defense technology sources. Eastwood, a brilliant political tactician and the first African-American president, must act forcefully as he learns of the Chinese scheme. His rigid, West Point ethics are challenged by ambition, and his complicated romantic life.

**swiss a340 business class: Straight and Level** Stephen Holloway, 2016-12-14 This third edition of Straight and Level thoroughly updates the previous edition with extensive comments on recent industry developments and emerging business models. The discussion is illustrated by current examples drawn from all sectors of the industry and every region of the world. The fundamental structure of earlier editions, now widely used as a framework for air transport management courses, nonetheless remains unchanged. Part 1 of the book provides a strategic context within which to consider the industry's economics. Part 2 is built around a simple yet powerful model that relates operating revenue to operating cost; it examines the most important elements in demand and traffic, price and yield, output and unit cost. Part 3 probes more deeply into three critical aspects of capacity management: network management; fleet management; and revenue management. Part 4 concludes the book by exploring relationships between unit revenue, unit cost, yield, and load factor. Straight and Level has been written primarily for masters-level students on aviation management courses. The book should also be useful to final year undergraduates wanting to prepare for more advanced study. Amongst practitioners, it will appeal to established managers moving from functional posts into general management. More broadly, anyone with knowledge of the airline industry who wants to gain a deeper understanding of its economics at a practical level and an insight into the reasons for its financial volatility should find the book of interest.

**swiss a340 business class: Smuk som et nakkeskud** Jan Eriksen, 2017-01-12 DR's underholdningschef Henrik Klein findes myrdet i DR-byen en sen aften. Manden bag store tv-succeser som X Factor og Melodi Grand Prix er likvideret med et skud i nakken. Chefen for Københavns Politis drabsafdeling går straks i gang med opklaringsarbejdet. Dagen efter findes

Kleins datter myrdet på en mindre københavnsk tv-station. Få timer senere findes endnu et lig i et hus, der ejes af moderen til en tidligere X Factor-deltager. Alt tyder på en sammenhæng mellem mordene. Opklaringsarbejdet følges intenst af den moralsk anløbne journalist Rasmus Gaarde, der arbejder for Avisen døgnet rundt. Selvom han egentlig har fri og er på vej på ferie. Det viser sig hurtigt, at flere excentriske beboere i én og samme opgang på Amager kan have et motiv til mordet på den usympatiske Klein. Det samme gælder danske, schweiziske og russiske repræsentanter for en mystisk EU-baseret forbryderorganisation, som styrer det Internationale Melodi Grand Prix. Skulle Klein dø, fordi han var en dårlig far og ægtefælle, en voldelig elsker, eller fordi han udstillede en psykisk syg? Eller fordi han en gang snød den afdankede popstjerne, Charmekludstenoren? Eller blev han likvideret af en EU-bureaukrat eller den russiske mafia? Vil det lykkes tre sexede kvindelige powderroom-detectives at finde løsningen først? Mens politiet med besvær forsøger at trænge ind i sagen, lykkes det flere af de mistænkte at flygte. Drabsafdelingens jagt på en løsning bringer den gennem Christiania, Sverige og Barcelona.

**swiss a340 business class: Innovation in Commoditized Service Industries** Maximilian Rothkopf, 2009 The passenger airline industry is a prominent service industry that is becoming increasingly commoditized. As little empirical work in this field exists, this study contributes to research by exploring how passenger airlines leverage innovation in such market conditions from a strategic and organizational view. Comprehensive case studies of a sample of eight passenger airlines constitute the empirical basis. The analysis detects patterns of innovations and draws conclusions on the strategic innovation behavior in the airline industry. The study proposes an organizational concept and a strategic approach for airlines to innovate in an increasingly

commoditized market.
