teacher christmas wish list: Christmas Stories My Grandpa Wrote for Me Glenn W. Martin, 2000-12-13 This charming book contains ten children's stories by Glenn W. Martin. The first eight stories were written for his grandchildren, and to be read to the children of the churches he

served at their Christmas Eve Family Services. You will meet Browser the dog, and Marty Mouse, and the three performers who missed the Christmas Pageant. You will find out if Patty got her Christmas wish, and learn about the girl who didn't want anything for Christmas. You will go to the manger with the stable boy, and share the disappointment of Ladius, the shepherd boy, who had to stay home. And you will wonder, with the blind Jacob, whether or not the new baby can really work miracles. The last two stories were written specifically for this book, for his two youngest grandchildren. You will learn why Jesus is missing from the manger, and why Shirley Starcluster can't twinkle. These stories, which are dedicated to Glenn's grandchildren, will never grow old or out-of-date. They will continue to delight, inspire, and bring hope and joy. They are his gift to all children, whoever and wherever they may be.

teacher christmas wish list: Realms Of Knowledge Leslie Santee Siskin, 2014-01-21 This study examines academic departments as a context for teaching in the secondary school. It explores

why teachers find departments to be crucial to the high school setting. In all three schools studied and in all four subjects English, Maths, Science and Social Science teachers - even those who felt isolated in their classrooms - located their sense of professional identity, practice and community in their departments. Departments are seen as boundaries for dividing the school; centres of social interaction; a micro political decision-making forum; as a subject knowledge category. Those concerns are important at this time as various attacks are being made on school structures and subject and administration fragmentation - in these cases subjects are seen as obstacles to change. To subject groups they are viewed as potential vehicles to carry and confirm the message.

teacher christmas wish list: Raising Frankie Brenda B. Moody, 2022-03-09 As a college student, he was blessed to become a student intern in the Information Technology (IT) department where he continued to increase his computer skills as a part-time computer lab assistant and a computer troubleshooter. These roles pushed his skilled to a brand-new level. "After the internship was over, I followed my instructor everywhere he went so I could learn everything I could. I even stayed after hours to glean from his knowledge." His instructor told him that he had never met anyone like him before. Someone who was hungry for knowledge. After graduating with a degree in computer science, he was offered a part-time job in the IT department. That job later became full-time. As a contributing co-author to Raising Frankie, he visited his parents twice a week to proofread and suggest any changes he felt were necessary. They wanted to make sure he was comfortable with every line before it went to publication. Since he has embraced the book, the three of us hope readers will share its content to assist anyone they know who is or have dealt with ADHD. Brenda is a retired educator who lives with her husband in North Carolina. During her academic

career, she served in several capacities in the educational arena. These positions included teaching academically gifted to disadvantaged and handicapped students in high school, high school assistant principal, and supervisor/director of Career Technical Education Programs. She has also taught on the community college level. In her community, she serves on several church auxiliaries to include serving as a deaconess, member of the senior usher board, and as a Sunday school teacher. Because of her experiences working with attention deficit hyperactive disorder (ADHD)—via students and their teachers—she wanted to share her knowledge and experiences with others through Raising Frankie. She hopes that loving and living this work will positively impact the lives of others as it has the Moody family. Frankie L. Moody Sr. (Moody), coauthor, is a United States Army Veteran and a retired lieutenant with the North Carolina State Highway Patrol. Presently, he is actively serving as a church deacon, president of the male ushers, Security Team member, Cub Scout Den Leader, and as a literacy tutor (for adults) with Triangle South Literacy Works. He also is employed part-time to transport people to and from medical appointments. In his years of working with people, Moody often imparted words of wisdom and encouragement whenever the opportunity presented itself. Brenda and Moody worked passionately together to first of all understand the characteristics of ADHD. Secondly, to embrace Frankie's diagnosis so they could help him to deal with whatever he may have encountered academically as well as socially during his formative years. Toward that end, Moody spent his days off each week serving as a teacher assistant's when Frankie was in elementary school. He also chaperoned every field trip and assisted with all of his sport activities. During high school, we worked together as a team to support Frankie as needed—to include how to handle unwarranted bullying. During high school and college, we realized that Frankie needed space to make his own decisions. With that said, we were always available and ready to activate whatever actions as were necessary to help Frankie to be successful without encroaching on his "I can do it on my own" abilities.

teacher christmas wish list: For the Love of Melissa Rhonda Ellen Shlanger, 2010-03
Melissa was diagnosed with Autism as a young child. Autism affects social and communication skills, and also involves unusual repetitive behaviours. This is a true story that is not simply about the struggles of a child with Autism. This book captures the resilience, unconditional love and endless perseverance of Melissa and her family. It is rare to read a story told with such beautiful honesty. As Melissa's former community worker and her current friend, I would like to express my admiration for her journey. I have had the opportunity to watch her blossom from a child who was fearful and in her own world to a young adult pursuing social relationships with enthusiasm, empathy, and curiosity. Not to mention that she is now an entrepreneur! Melissa truly is a remarkable woman. And this story about her life reaches out to touch your heart and open your mind. Jennifer Janes Community Helper of Individuals with Autism and current friend of Melissa Rhonda was able to make a difference in Melissa's life against all odds. When the medical profession and the school system gave Rhonda little hope that Melissa could have a normal life, she never accepted this dire prediction. When there was no help, she tried strategies that she felt would make a difference for Melissa. She sought out every treatment that was then available to help Melissa. What Rhonda had done is nothing short to a miracle-a miracle that was created through Perseverance and fueled by a mother's love. This is a must-read book for all to remind us that we can make a difference in the life of a child. It is a true story with a happy ending.
