teacher assistant appreciation day 2024: *What Can I Take Off Your Plate?* Jill Handley, Lara Donnelly, 2024-08-28 Teacher burnout demands systemic solutions, not self-care. Learn what leaders can do to actively reduce frustration and provide real, sustaining support for all staff. With teachers across the board assuming additional responsibilities, stress and job dissatisfaction are more prevalent than ever. Widespread staff shortages, which further increase workloads, and budget directives that require everyone to do more with less continue to demotivate and erode morale. It's no wonder so many teachers choose to leave the profession—or that many who remain feel overworked and unappreciated. The proper response from principals and other school leaders is not to encourage so-called self-care but rather to take a systemic approach that focuses on the factors they can control: time, effort, and resources. To increase teacher retention and alleviate the compounded effects of teacher burnout, leaders need to ask less of their staff and offer them more. In *What Can I Take Off Your Plate?*, veteran educators Jill Handley and Lara Donnelly detail both the immediate steps you can take to triage your staff's emotional exhaustion and the big-picture structural changes you can make to reduce frustration, increase motivation, and support the whole teacher. You'll learn useful ways to * Reduce initiative fatigue. * Give the gift of time. * Support from within the classroom. * Foster and support a healthy work-life balance. * Demonstrate appreciation. * Infuse fun in the workplace. This book is for school leaders who are ready to treat burnout like the complicated challenge it is—and meet it with both focused action and the lasting, sustainable solutions it demands.

teacher assistant appreciation day 2024: *Till the Bitter End* RM Suhuncheck, 2024-03-01 The first ten years of my career in education was as an elementary school teacher. Nevertheless, the focus of my book is on my twenty-three years as an assistant principal. Utilizing true stories and conversations, I attempt to illustrate how poor leadership transformed a once proud school district into Pittsville. There is no possible way that I would have ever attempted to write my story, had not my career taken so many twists and turns. Working for twelve principals, in spans that ranged from two months to seven and a half years, enabled me to develop my own set of strategies, learn what ideas worked, and accumulate enough stories that made me angry, made me laugh, and motivated me to write my story. In closing, bitterness is not a character trait becoming to anyone, yet bitterness is what motivated me to write my story.

teacher assistant appreciation day 2024: Inventing Philosophy's Other Jonathan Strassfeld, 2024-05-31 The history of phenomenology, and its absence, in American philosophy. Phenomenology and so-called continental philosophy receive scant attention in most American philosophy departments, despite their foundational influence on intellectual movements such as existentialism, post-structuralism, and deconstruction. In Inventing Philosophy's Other, Jonathan Strassfeld explores this absence, revealing how everyday institutional practices played a determinative role in the development of twentieth-century academic discourse. Conventional wisdom holds that phenomenology's absence from the philosophical mainstream in the United States reflects its obscurity or even irrelevance to America's philosophical traditions. Strassfeld refutes this

story as he traces phenomenology's reception in America, delivering the first systematic historical study of the movement in the United States. He examines the lives and works of Marjorie Grene, Alfred Schütz, Hubert Dreyfus, and Iris Marion Young, among others, while also providing a fresh introduction to phenomenological philosophy.
