teacher appreciation images free: Qualitative Inquiry Lynn Butler-Kisber, 2010-02-17 Qualitative Inquiry unites the basics of research design in qualitative research with the practice of analysing qualitative data. This textbook addresses the theory and practice of choosing and designing a qualitative approach and methodological and analytical ramifications that follow from making such choices. It aims to set out the theoretical underpinnings behind different

methodological choices and to help students then follow up on (and interrogate) such approaches. Qualitative Inquiry is the ideal starting point for students on research training courses who have opted to develop a qualitative research project. In it, Butler-Kisber introduces students to theory and then demonstrates this theory in practice by showing how a project is actually designed and actually analysed. This book examines theory, method and interpretation in a way that is meaningful to students and new researchers, as well as discussing newer, more avant-garde, developments in qualitative research in arts-based inquiry. It is essential reading for students who are seeking to make sense of their research and their developing theoretical standpoints.

teacher appreciation images free: *Legacies of Christian Language and Literacies in American Education* Mary M. Juzwik, Jennifer C. Stone, Kevin J. Burke, Denise Dávila, 2019-10-23 Because spiritual life and religious participation are widespread human and cultural phenomena, these experiences unsurprisingly find their way into English language arts curriculum, learning, teaching, and teacher education work. Yet many public school literacy teachers and secondary teacher educators feel unsure how to engage religious and spiritual topics and responses in their classrooms. This volume responds to this challenge with an in-depth exploration of diverse experiences and perspectives on Christianity within American education. Authors not only examine how Christianity – the historically dominant religion in American society – shapes languaging and literacies in schooling and other educational spaces, but they also imagine how these relations might be reconfigured. From curricula to classroom practice, from narratives of teacher education to youth coming-to-faith, chapters vivify how spiritual lives, beliefs, practices, communities, and religious traditions interact with linguistic and literate practices and pedagogies. In relating legacies of Christian languaging and literacies to urgent issues including White supremacy, sexism and homophobia, and the politics of exclusion, the volume enacts and invites inclusive relational configurations within and across the myriad American Christian sub-cultures coming to bear on English language arts curriculum, teaching, and learning. This courageous collection contributes to an emerging scholarly literature at the intersection of language and literacy teaching and learning, religious literacy, curriculum studies, teacher education, and youth studies. It will speak to teacher educators, scholars, secondary school teachers, and graduate and postgraduate students, among others.

teacher appreciation images free: *A Poetry Teacher's Toolkit* Collette Drifte, Mike Jubb, 2018-12-07 Professional poets spend many hours crafting a finished piece of work, yet we expect children in school to sit down and write when they are told to, whether they feel inspired or not. This series of four books is a toolkit to help you build a positive framework for children to read, write, understand and enjoy poetry - to bring a creative spark to the poetry classroom. A combination of featured poems, creative ideas, structured lesson plans and differentiated photocopiable activity sheets gives the series a uniquely flexible approach - which means you can use the materials in any classroom context. If you're wary of poetry, if you think it's boring, or if you're nervous about teaching poetry, then you've chosen the right book. Key themes covered in BOOK 3: Style, Shape and Structure are style and structure, addressing regular and standard forms, the impact of layout, free form, 'found' poetry, and concrete poetry. Other books in the series are: BOOK 1: Words and Wordplay; BOOK 2: Rhymes, Rhythms and Rattles; and BOOK 4: Language and Performance.

teacher appreciation images free: Women in Chinese Martial Arts Films of the New Millennium Ya-chen Chen, 2012-04-12 Women and Gender in Chinese Martial Arts Films of the New Millennium, by Ya-chen Chen, is an excavation of underexposed gender issues focusing mainly on contradictory and troubled feminism in the film narratives. In the cinematic world of martial arts films, one can easily find representations of women of Ancient China released from the constraints of patriarchal social order to revel in a dreamlike space of their own. They can develop themselves, protect themselves, and even defeat or conquer men. This world not only frees women from the convention of foot-binding, but it also unbinds them in terms of education, critical thinking, talent, ambition, opportunities to socialize with different men, and the freedom or right to both choose their spouse and decide their own fate. Chen calls this phenomenon Chinese cinematic martial arts feminism. The liberation is never sustaining or complete, however; Chen reveals the presence of a glass ceiling marking the maximal exercise of feminism and women's rights which the patriarchal order is willing to accept. As such, these films are not to be seen as celebrations of feminist liberation, but as enunciations of the patriarchal authority that suffuses Chinese cinematic martial arts feminism. The film narratives under examination include *Crouching Tiger, Hidden Dragon* (directed by Ang Lee); *Hero* (Zhang Yimou); *House of the Flying Daggers* (Zhang Yimou); *Seven Swords* (Tsui Hark); *The Promise* (Chen Kaige); *The Banquet* (Feng Xiaogang); and *Curst of the Golden Flower* (Zhang Yimou). Chen also touches upon the plots of two of the earliest award-winning Chinese martial arts films, *A Touch of Zen* and *Legend of the Mountain*, both directed by King Hu.

teacher appreciation images free: Pedagogies of the Imagination Timothy Leonard, Peter Willis, 2008-06-11 I have long admired the mythopoetic tradition in curriculum studies. That admiration followed from my experience as a high-school teacher of English in a wealthy suburb of New York City at the end of the 1960s. A “dream” job—I taught four classes of 15–20 students during a nine-period day—in a “dream” suburb (where I could afford to reside only by taking a room in a retired teacher’s house), many of these often Ivy-League-bound students had everything but meaningful lives. This middle-class, Midwestern young teacher was flabbergasted. In one sense, my academic life has been devoted to understanding that searing experience. Matters of meaning seemed paramount in the curriculum field to which Paul Klohr introduced me at Ohio State. Klohr assigned me the work of curriculum theorists such as James B. Macdonald. Like Timothy Leonard (who also studied with Klohr at Ohio State) and Peter Willis, Macdonald (1995) understood that school reform was part of a broader cultural and political crisis in which meaning is but one casualty. In the mythopoetic tradition in curriculum studies, scholars labor to understand this crisis and the conditions for the reconstruction of meaning in our time, in our schools.
