**teacher end of year meme: Memenomics** Said Dawlabani, 2013-09 The term “vMEME” (the superscript “v” is for “value”) refers to a core value system expressed through a culture's memes, i.e., its ideas, habits, and cultural preferences and practices that spread from person to person. In MEMEnomics Said E. Dawlabani reframes our economic history and the future of capitalism through the unique prism of a culture's value systems. Focusing on the long-term effects of economic policies on society, he expands psychologist Clare W. Graves' concepts of the hierarchical nature of human development and the theories of value systems of Beck and Cowan's Spiral Dynamics. He presents our economic history in terms of the hierarchy of five of the eight value-systems or vMEMEs of human existence that we can now identify. These new value preferences emerge as people interact with their environment to solve the problems of their “life conditions.”

**teacher end of year meme: Into Hell I Rode** Li Atwood, 2011-04-01 In his revealing and frank autobiography, David G. Atwood, II takes us into a world of government corruption, back-stabbing politicians and an all too familiar tour of the criminal justice system. Persecuted by a corrupt sheriff's department for exposing a cabal of local corruption that reached into the upper echelon of international politics; prosecuted and sent to federal prison for a crime he didn't commit; and discriminated against for being gay, David leads us on a journey through the life of a prisoner that only an insider could tell and captivates us with a story of courage that will inspire everyone who

reads it. Whether revealing the drug connections that for years have padded the pockets of the local cops and exposing how government-sanctioned drug deals in Vicksburg, Mississippi helped illegally fund the Nicaraguan Contras in the 1980's, David leaves no hole's barred as he takes aim at those who would misuse their political power for personal gain.

**teacher end of year meme: Race Conscious Pedagogy** Todd M. Mealy, 2020-10-12 In 1935, W.E.B. Du Bois asked, Does the Negro need separate schools? His stunning query spoke to the erasure of cultural relevancy in the classroom and to reassurances given to White supremacy through curricula and pedagogy. Two decades later, as the Supreme Court ordered public schools to desegregate, educators still overlooked the intimations of his question. This book reflects upon the role K-12 education has played in enabling America's enduring racial tensions. Combining historical analysis, personal experience, and a theoretical exploration of critical race pedagogy, this book calls for placing race at the center of the pedagogical mission.
