It includes cash from operating activities, investing activities, and financing activities. On the other hand, a profit and loss statement, or income statement, summarizes the company's revenues, costs, and expenses during a specific period, showing the net profit or loss incurred. 5. How do you approach budgeting and forecasting? Answer: My approach to budgeting and forecasting involves a combination of historical data analysis, market trend evaluation, and stakeholder collaboration. Strategic and Analytical Questions 10. How do you ensure your financial strategies align with the overall goals of the company?
