who s afraid of virginia woolf analysis: Virginia Woolf's Late Cultural Criticism Alice Wood, 2013-08-01 After the Modernist literary experiments of her earlier work, Virginia Woolf became increasingly concerned with overt social and political commentary in her later writings, which are preoccupied with dissecting the links between patriarchy, patriotism, imperialism and war. This book unravels the complex textual histories of *The Years* (1937), *Three Guineas* (1938) and *Between the Acts* (1941) to expose the genesis and evolution of Virginia Woolf's late cultural criticism. Fusing a feminist-historicist approach with the practices and principles of genetic criticism, this innovative study scrutinizes a range of holograph, typescript and proof documents within their historical context to uncover the writing and thinking processes that produced Woolf's cultural analysis during 1931-1941. By demonstrating that Woolf's late cultural criticism developed through her literary experimentalism as well as in response to contemporary social, political and economic upheavals, this book offers a fresh perspective on her emergence as a cultural commentator in her final decade and paves the way for further genetic enquiries in the field.

who s afraid of virginia woolf analysis: Summary of Cocktails with George and Martha by Philip Gheffer: The Prequel to We Were Liars thomas francis, 2024-04-30 Cocktails with George and Martha Edward Albee's 1966 movie, *Who's Afraid of Virginia Woolf?* embarks on a nighttime journey of taunts and challenges, marked by intense peaks and tender moments. The film commences with the return of George and Martha, a married couple, after a late-night gathering. Martha, portrayed by Elizabeth Taylor, casually dismisses the event as a Dump, before abruptly turning towards George, played by Richard Burton. Martha believes she's mimicking Bette Davis's performance in a goddamn Warner Brothers epic, yet her delivery lacks Davis's usual precise enunciation; it's a fleeting remark, devoid of Hollywood diva flair. In the original 1962 stage production of *Who's Afraid of Virginia Woolf?*, actress Uta Hagen meticulously articulated the line, surpassing even Davis herself.

who s afraid of virginia woolf analysis: *Wit's End* Sean Zwagerman, 2010-04-25 In *Wit's End*, Sean Zwagerman offers an original perspective on women's use of humor as a performative strategy as seen in works of twentieth-century American literature. He argues that women whose direct, explicit performative speech has been traditionally denied, or not taken seriously, have often turned to humor as a means of communicating with men. The book examines both the potential and limits of women's humor as a rhetorical strategy in the writings of James Thurber, Zora Neale Hurston, Dorothy Parker, Edward Albee, Louise Erdrich, and others. For Zwagerman, these texts "talk back" to important arguments in humor studies and speech-act theory. He deconstructs the use of humor in select passages by employing the theories of J. L. Austin, John Searle, Jacques Derrida, Shoshana Felman, J. Hillis Miller, and Eve Kosofsky Sedgwick. Zwagerman offers arguments both for and against these approaches while advancing new thinking on humor as the "end"—both the goal and limit—of performative strategy, and as a means of expressing a full range of serious purposes. Zwagerman contends that women's humor is not solely a subversive act, but instead it should be viewed in the total speech situation through context, motives, and intended audience. Not strictly a transgressive influence, women's humor is seen as both a social corrective and a reinforcement of established ideologies. Humor has become an epistemology, an "attitude" or slant on one's relation to society. Zwagerman seeks to broaden the scope of performativity theory beyond the logical pragmatism of deconstruction and looks to the use of humor in literature as a deliberate stylization of experiences found in real-world social structures, and as a tool for change.
