It is a Bible that prioritizes: • a bold, rich language as suitable for reading out loud as for studying in silence, so that “the message might be fully proclaimed” (2 Timothy 4:17) • accurate translation of the original scriptures rather than the “dynamic equivalence” of some other modern versions • assurance that the message of the Bible is directed to men and women equally, despite the inbuilt bias of the English language This comprehensive Study Edition is the world’s first presentation of the full Revised New Jerusalem Bible, complete with study notes, cross-references, and book introductions. It has been prepared and edited for a modern readership by Dom Henry Wansbrough, OSB, who was general editor of the New Jerusalem Bible. wisdom in another language: Hajj to the Heart Scott Kugle, 2021-12-28 Against the sweeping backdrop of South Asian history, this is a story of journeys taken by sixteenth-century reformist Muslim scholars and Sufi mystics from India to Arabia. At the center is the influential Sufi scholar Shaykh Ali Muttaqi and his little-known network of disciples. Scott Kugle relates how Ali Muttaqi, an expert in Arabic, scriptural hermeneutics, and hadith, left his native South Asia and traversed treacherous seas to make the Hajj to Mecca. Settling in Mecca, he continued to influence his homeland from overseas. Kugle draws on his original translations of Arabic and Persian manuscripts, never before available in English, to trace Ali Muttaqi's devotional writings, revealing how the Hajj transformed his spiritual life and political loyalties. The story expands across three generations of peripatetic Sufi masters in the Mutaqqi lineage as they travel for purposes of pilgrimage, scholarship, and sometimes simply for survival along Indian Ocean maritime routes linking global Muslim communities. Exploring the political intrigue, scholarly debates, and diverse social milieus that shaped the colorful personalities of his Sufi subjects, Kugle argues for the importance of Indian Sufi thought in the study of hadith and of ethics in Islam. We are proud to announce that this book is freely available in an open-access enhanced edition thanks to TOME (Toward an Open Monograph Ecosystem)—a collaboration of the Association of American Universities, the Association of University Presses, and the Association of Research Libraries—and the generous support of Emory University and the Andrew W. From the late 1840s until the time of his transition, he wrote down his own particular philosophical, psychological and metaphysical views on life, death, health, religion and the mind. His early studies of hypnosis, then called mesmerism, led him later on to develop his unique method of healing for both mental and physical afflictions. Proud of his New England heritage, passionate in his love of liberty and equality for all, outspoken in his admonitions against what he considered aristocracy and priestcraft, empathetic toward the sick and suffering, he recorded his experiences, experiments and case studies of his own life journey's explorations into humanity and spirituality, in order to leave behind, for us, what he found, for himself, to be universally applicable truths, for the benefit of all mankind. For this reason, he wrote this book. (Hardcover Edition) (700 pages)
