women s leadership conferences 2023: Proceedings of the 2023 3rd International Conference on Business Administration and Data Science (BADs 2023) Bijay Kumar Kandel, Anuranjan Misra, Junfeng Liao, Changiz Valmohammadi, 2023-12-26 This is an open access book. In the current situation of rapid economic development, the competition in the market is increasingly fierce. The drawbacks of traditional enterprise management and the backward management concept have seriously hindered the normal development of enterprises. In order to improve their competitive advantages and market share, enterprises must optimize their management methods and build a modern business administration system. In this situation, enterprises can only promote their development process by improving their business management mode and formulating scientific business management policies. Data science is one of the most important tools for optimizing business administration. Data science is an interdisciplinary field that uses scientific methods, processes, algorithms and systems to extract value from data. Data scientists use a combination of skills (including statistics, computer science and business knowledge) to analyze data collected from the Web, smartphones, customers, sensors and other sources. Data is the cornerstone of innovation, and data scientists gather information from data, discovering hidden trends from raw data and generating insights that companies can use to transform business problems into research projects that can then be translated back into practical solutions. Based on this, BADs 2023 discusses the state of modern business administration and the corresponding improvement measures in the context of the current reality, and It also provides a platform for scholars in related fields to exchange and share information, discuss how the two affect each other, and promote the modernization of business administration by studying certain business administration issues. To open new perspectives, broaden horizons, and examine the issues being discussed by the participants. Create an international-level forum for sharing, research and exchange that will expose participants to the latest research directions, results and content in different fields, thus inspiring them to come up with new research ideas.

women s leadership conferences 2023: Empowering and Advancing Women Leaders and

Entrepreneurs Haoucha, Malika, 2024-05-31 Women living in rural regions today still often struggle to harness the full potential of mobile internet for their economic empowerment, despite a rapidly evolving digital landscape. This limitation hinders their ability to engage in online selling, job searching, and accessing public services, thereby constraining potential economic opportunities. The powerful research book, *Empowering and Advancing Women Leaders and Entrepreneurs*, presents a comprehensive analysis of the impact of mobile internet on gender-inclusive economic empowerment, offering innovative solutions to enhance rural entrepreneur's digital skills and knowledge. The underrepresentation of women in leadership roles globally must be addressed to advance gender equity. This book examines the systemic barriers, including stereotypes and biases, that impede women's advancement in leadership positions. By proposing coordinated solutions involving corporations, governments, and civil society, such as allyship building and policy reforms, the book aims to reduce gender gaps in leadership and foster a more inclusive society. Through its insightful analysis and practical recommendations, this book is a valuable resource for scholars, policymakers, and practitioners seeking to promote gender equality and inclusive development, and underscores the necessity of their roles for this initiative.

women s leadership conferences 2023: Proceedings of the 2023 2nd International Conference on Social Sciences and Humanities and Arts (SSHA 2023) Mohd Fauzi bin Sedon, Intakhab Alam Khan, Mehmet CÜNEYT BİRKÖK, KinSun Chan, 2023-06-29 This is an open access book. With the progress of social civilization, social science and its research are becoming more and more important. Theoretically and practically, the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings. At present, social science research and its results can hardly meet the needs of social development, especially the unscientific evaluation of social science results, which has aroused great concern from all walks of life, and has produced dirt and questions on social science, thus affecting the proper development of social science. Max Weber once said that the most important function of social science in modern times is to keep people clear-headed and to resist the delusions of prophetic legislators. Humanities and arts are the process of perceiving, realizing, thinking, manipulating, and expressing objective or subjective objects through capturing and excavating, feeling and analyzing, integrating and applying, or displaying the stage results in the form obtained through feeling (seeing, hearing, smelling, touching). The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions. And by reacting to today's increasingly intricate problems and situations through systematic and professional discussions, they will further contribute to the improvement of institutions and the development of society. By thinking about issues and looking at problems and the world from different perspectives by putting the two together, it may be possible to have more comprehensive, appropriate, and better responses; for example, the development of laws requires a deeper understanding of the environment in which they are implemented; international trade requires a certain understanding of the customs of different countries; and the development of tax and economic policies requires a certain understanding of the population, consumer demand, etc.

women s leadership conferences 2023: Women in Logistics, Transport and Commodity Sector Nor Aida Abdul Rahman, Emilia Vann Yaroson, Norlin Khalid, Fathien Azuien Yusriza, 2025-04-22 This book explores the fundamental human right of gender equality as a cornerstone for a peaceful, affluent, and sustainable world. Members of the Asia Pacific Economic Cooperation (APEC) and other countries have formulated strategies to increase the participation of women in business and leadership roles, highlighting its significance. Women currently hold 29% of senior or managerial positions, as noted in Catalyst (2019). Despite this progress, women's participation in logistics and transport remains low due to factors like low expectations, limited access to critical skills, and inadequate advancement, especially in aviation, maritime, and rail sectors. The book offers a comprehensive review and empirical study of women's capacity building, talent management, and leadership in logistics, transportation, and commodity sectors, including palm oil, gold, and copper. It covers female empowerment, leadership values, and challenges faced during

crises such as COVID-19, wars, and natural disasters. With international case studies, this book is a vital resource for students, scholars, and practitioners in logistics and transport. It aims to benefit advanced undergraduates, postgraduates, managers, and decision-makers worldwide.

women s leadership conferences 2023: Women's Leadership in Music Iva Nenic, Linda Cimardi, 2023-03-03 Various modes of women's contemporary cultural, social and political leadership can be found in music. Informed by different histories and culturally bound social mores but also by a comparative perspective, the contributors of this volume ask what can be considered leadership in culture from women's point of view. They deconstruct the notion of leadership as corporative and career-related modes of success by showing how women's agency, power and negotiation in and through music can and should be considered as empowering, transformative and role-modeling. By interweaving several disciplinary perspectives – from ethnomusicology, musicology and cultural management to sociology and anthropology – this volume aims to substantially contribute to the study of women's leadership.

women s leadership conferences 2023: *Cultural Awareness and Diversity Management in Contemporary Education* Özen, Hamit, Polat, Gülşah, 2024-12-10 In education, cultural awareness and diversity management are essential elements for creating inclusive and equitable learning environments. Cultural awareness enables educators to recognize and respect the diverse backgrounds, perspectives, and experiences of students, fostering a sense of belonging. Diversity management, in turn, involves implementing strategies that ensure all students are supported and valued, regardless of their cultural, linguistic, or social differences. By embracing these principles, educators can promote a more dynamic and enriched learning experience, where every student has the opportunity to succeed. Cultural Awareness and Diversity Management in Contemporary

Education educators can create inclusive, supportive environments by recognizing and valuing the diverse backgrounds of their students. It examines strategies for fostering equity, reducing bias, and promoting a deeper understanding of cultural differences to enhance the overall learning experience. Covering topics such as conflict management skills, disadvantages students, and women leadership, this book is an excellent resource for educators, school administrators, education policymakers, curriculum developers, and teacher education programs.

women s leadership conferences 2023: *The SAGE Encyclopedia of Leadership Studies* George R. Goethals, Scott T. Allison, Georgia J. Sorenson, 2023-02-20 Leadership Studies is a multi-disciplinary academic exploration of the various aspects of how people get along, and how together they get things done. The fields that contribute to leadership studies include history, political science, psychology, anthropology, sociology, philosophy, literature, and behavioral economics. Leadership Studies is also about the ethical dimensions of human behavior. The discipline considers what leadership has been in the past (the historical view), what leadership actually looks like in the present (principally from the perspectives of the behavioral sciences and political science), and what leadership should be (the ethical perspective). The SAGE Encyclopedia of Leadership Studies will present both key concepts and research illuminating leadership and many of the most important events in human history that reveal the nuances of leadership, good and bad. Entries will include topics such as power, charisma, identity, persuasion, personality, social intelligence, gender, justice, unconscious conceptions of leadership, leader-follower relationships, and moral transformation.

women s leadership conferences 2023: *Essentials of Leadership in Africa* Bella L.

Galperin, Caren B. Scheepers, 2025-01-15 This concise overview of the theories and practice of leadership in the African context is the first of its kind. **Essentials of Leadership in Africa** introduces leadership as an art and science to inspire confidence and support among the people who need to achieve common organisational goals. We present a framework of leadership which emphasises the role of the African context in better understanding leadership effectiveness. According to our model, leadership in Africa can be understood by focusing on the leader's skills, motives, and behaviours; the leader's role in developing teamwork and team leadership; and the organisational context. It is important to understand that leadership does not occur in a vacuum. Each chapter includes illustrative real-life examples, experiential exercises, short cases, and/or assessments. The book appeals to undergraduate and graduate students in Africa and/or other parts of the world who are interested in leadership on the African continent. In addition, managers, trainers, and practitioners can benefit from reading **Essentials of Leadership in Africa**.
