women s leadership summit 2023: The Politics of Gender Equality Carol Johnson, 2024-08-22

This open access book provides the first in-depth study of the development of federal gender equality politics and policy in Australia from the 1970s to the present day. Australia has a history of gender equality innovation, including granting women's suffrage long before equivalent countries. From the 1970s on, it became the first country to introduce a women's adviser, femocrats (feminist bureaucrats) and gender responsive budgeting but then fell behind, partly due to the influence of Anglosphere neoliberalism. However, the Albanese government has pledged to make Australia a world leader in gender equality again. The book situates Australia in an international context, assessing the useful, though sometimes salutary, lessons which the Australian experience provides. It engages with key literature, including feminist political theory, discursive framing analysis, gendered public policy analysis, LGBTIQ+ issues, path dependency, and gender and leadership. It will interest academics, undergraduate and postgraduate researchers, public policy experts and practitioners, and a broader readership interested in issues of gender equality. The book makes innovative contributions to the study of the politics of gender equality policy, addressing what a gender equality policy agenda could look like if the needs of women, in all their intersectional social diversity, were the driving force. In doing so, it addresses a range of issues that are impacting the future of women, including an ongoing pandemic, technology, education and training agendas, issues of sovereign capability, securitisation, climate change and the growth of campaigns that oppose so-called "gender ideology". It explores how current government agendas, such as the focus on wellbeing, could be made even more gender-inclusive. Finally, the book suggests that Australia, as a multicultural but predominantly Western, settler-colonial society situated in the Asia-Pacific has some potentially unique insights to offer in a world facing major geoeconomic and geopolitical change.

women s leadership summit 2023: Quietly Confident Kate James, 2024-03-26 With research showing that as many as 50 per cent of us are introverts, why are so many of us still playing an extrovert's game? Career coach and self-professed introvert Kate James has heard hundreds of smart, creative introverts tell a similar story: despite being motivated and hardworking, they aren't where they want to be in their careers or personal lives. At work, they don't speak up, ask for rewards, or set boundaries with their more assertive colleagues. And if they do get a seat at the table, they often sacrifice their true values, which leaves them feeling drained and inauthentic. In *Quietly Confident*, Kate looks beyond the narrow scope of popular culture and paints a broader, more human definition of what it means to have confidence and be 'successful'. In an era that rewards those with the loudest voices (and the most followers), Kate encourages introverts to let go of outdated ideas and beliefs so that they too might shine just as brightly. With a better understanding of an introvert's many invaluable gifts and showing us how to tap in to our infinite worth, Kate will guide readers towards the confidence that already exists within each of us. Written with warmth and compassion, *Quietly Confident* is a must-have guide to identifying your strengths, claiming your worth and finding your true place in the world. Praise for *Quietly Confident* 'A celebration of introversion in a loud and extroverted world. It's not just necessary, it's transformative.' women s leadership summit 2023: Choose Freedom! Bruce Eberle, 2023-09-04 With more than 400 endnotes, and endorsements from a broad number of national conservative leaders, Choose Freedom! provides a reliable guidebook for young people, as well as a refresher for all conservatives. Written expressly for high school and college students, Choose Freedom! is an antidote to the woke indoctrination that is pervasive in America's education system—from grade school to grad school. This rescue book is the ideal book for parents and grandparents to give to their children. It not only explains why there is a bright line from the thinking of America's Founders to today's conservative movement, but also exposes the rotten, anti-freedom lineage of today's progressive/liberal movement. Choose Freedom! reminds readers of the challenges facing the nation, the weaknesses of the left, and warns of the panic and fear of those on the left who correctly surmise that their message only succeeds when the American people hear only their side of the story. It is also a book of optimism. Choose Freedom! encourages young men and women to engage in the conservative movement, to grow in understanding of its history and its values, and to press forward. Choose Freedom! tells young Americans how to persuade others to join the conservative cause, how to spread the message of conservatism on their college campus, and why they should be optimistic that the current threat from the left will be repelled in this generation. Using understandable language, author Bruce Eberle explains the core reason that conservatives and America's Founders stand in total opposition to every conclusion of the progressive movement, from its founding in the 1890s until today. With more than 400 endnotes, and endorsements from a broad number of national conservative leaders, Choose Freedom! provides a reliable guidebook for young people, as well as a refresher for all conservatives.

It all begins with your thoughts. I never look good in tight skirts. I can’t ask for a raise or my boss will think I’m greedy. I’m getting too old to find a partner. I’m a bad mom. I’m always behind. In fact, these messages are so pervasive that, even knowing they exist, they still manage to program themselves into our brains. The result is that women end up feeling anxious, guilty, and vaguely ashamed of themselves no matter how much they do for others or achieve for themselves. So how do we

deprogram our thoughts from patriarchy's corrosive influence? And once we do, how can we create new, self-empowering beliefs? Master Certified Life Coach and host of the UnF*ck Your Brain podcast Kara Loewentheil knows how. Despite graduating from Harvard Law School and getting her dream job, Kara spent her twenties and thirties feeling insecure and anxious, until she learned how to change her thoughts—which led her to become a coach. In *Take Back Your Brain*, she draws on cognitive psychology, feminist theory, and years of experience as a neuroplasticity-focused coach to break down how the patriarchy hijacks women's brains, and how women can get free. To bridge the gap between your inner voice and your true potential, she says, you must begin with your thoughts. By using the skills in this book to literally rewire your brain, you can create new thought patterns that will directly transform outcomes in your life. Ultimately, *Take Back Your Brain* invites you to replace the thoughts that no longer serve you and make room for a kind of confidence you never thought possible. Because when women unleash their true power, they awaken new possibilities for the world.
