women s history month wallpaper: *Beyond the Call* Eileen Rivers, 2018-11-06 A riveting account of three women who fought shoulder-to-shoulder with men and worked with local women to restore their lives and push back the Taliban They marched under the heat with 40-pound rucksacks on their backs. They fired weapons out of the windows of military vehicles, defending their units in

deadly battles. And they did things that their male counterparts could never do--gather intelligence on the Taliban from the women of Afghanistan. As females they could circumvent Muslim traditions and cultivate relationships with Afghan women who were bound by tradition not to speak with American military men. And their work in local villages helped empower Afghan women, providing them with the education and financial tools necessary to rebuild their nation--and the courage to push back against the insurgency that wanted to destroy it. For the women warriors of the military's Female Engagement Teams (FET) it was dangerous, courageous, and sometimes heartbreaking work. Beyond the Call follows the groundbreaking journeys of three women as they first fight military brass and culture and then enemy fire and tradition. And like the men with whom they served, their battles were not over when they returned home.

women s history month wallpaper: Irish Literature in the Celtic Tiger Years 1990 to 2008 Susan Cahill, 2011-06-09 When Irish culture and economics underwent rapid changes during the Celtic Tiger Years, Anne Enright, Colum McCann and Éilís Ní Dhuibhne began writing. Now that period of Irish history has closed, this study uncovers how their writing captured that unique historical moment. By showing how Ní Dhuibhne's novels act as considered arguments against attempts to disavow the past, how McCann's protagonists come to terms with their history and how Enright's fiction explores connections and relationships with the female body, Susan Cahill's study pinpoints common concerns for contemporary Irish writers: the relationship between the body, memory and history, between generations, and between past and present. Cahill is able to raise wider questions about Irish culture by looking specifically at how writers engage with the body. In exploring the writers' concern with embodied histories, related questions concerning gender, race, and Irishness are brought to the fore. Such interrogations of corporeality alongside history are imperative, making this a significant contribution to ongoing debates of feminist theory in Irish Studies.
