women s leadership event: Women Leaders at Work Elizabeth Ghaffari, 2012-01-15 Women Leaders at Work traces the personal life decisions taken by women who found ways to achieve greatness in their work. Each story is intriguing. But, collectively, the stories provide inspiration. They illustrate how real women of varied talents from varied backgrounds traversed quite different paths, seized opportunities presented in many guises, and found ways to achieve and to contribute to society. Elizabeth Ghaffari relates these stories with an unerring instinct to reveal the fascinating, personal dimensions of real women. Anita K. Jones, University Professor Emerita, University of Virginia Women Leaders at Work shines a light on women. Today's leaders who are women, who are changing our world, even as examples, inspire young women who are our leaders of the future. Great book! Frances Hesselbein, President & CEO, Leader to Leader Institute, New York, NY The stories of each of these amazing women read like novels -- humble beginnings, triumphs, failures, incredible determination and resourcefulness, overcoming the familiar obstacles facing women in the workplace. But these stories are true, and they inspire us. There are many more stories out there, but thanks to Elizabeth Ghaffari, we are privileged to share these few. Groundbreaking women, groundbreaking book. Judith M. Runstad, Attorney, FOSTER PEPPER PLLC, Seattle, WA I have read many books on leadership and women leaders, and Elizabeth Ghaffari's book rises to the top for me. The in-depth interviews provide insight into leadership in general, issues unique to women, as well as an insider's view into a broad array of industries. Women Leaders at Work highlights superb women leaders, beyond the usual suspects, many of whom you may never have otherwise come to know. Cathy Sandeen, Ph.D., MBA, Dean, UCLA Extension, University of

California, Los Angeles In her newest book, Elizabeth Ghaffari has scouted out exceptional women who started in small, but courageous ways to follow unique visions. These women achieved positions of influence and power, but their routes to success were never straight-lined. They endured digressions and embraced change. They navigated the intricacies of corporations, academia, non-profits, and the fields of science and technology. They speak with their own voices about their lives and motivation and tell their stories with modesty and encouragement to other women who may want to lead and serve. Mary S. Metz, Ph.D., President Emerita, Mills College Women Leaders at Work is filled from cover-to-cover with stories about the lives of extraordinary women who are in leadership today. Elizabeth Ghaffari uses her exceptional interviewing talents to ask the right questions to elicit memorable lessons that are inspiring, uplifting and educational. Each of the eighteen chapters focuses on the life and career path of a fascinating, accomplished woman. Ghaffari illustrates that breakthrough success can occur in a myriad of fields from medicine, law, academia, government, public corporations, science and philanthropy. It is not necessary to stay on a narrow hierarchical career path. In fact, none of these champions followed career paths that were straight-line trajectories. 'We often have to be re-potted to grow' and 'Don't leave the power of a corporation just because you want to change the world. Harness it,' are two of the many memorable lessons. Women Leaders at Work is filled with important wisdom and advice for past, present and future leaders. I highly recommend this book for men and women of all ages and interests! Susan Murphy, Ph.D, noted author, speaker, business consultant, www.Consult4Business.com Ghaffari's Women Leaders at Work captures diverse personal stories of trailblazing women who share candid experiences including career challenges. It is clear that much more than mentoring matters -- sponsorship is key. Linda Griego, President & CEO, Griego Enterprises, Inc. By interweaving several disciplinary perspectives – from ethnomusicology, musicology and cultural management to sociology and anthropology – this volume aims to substantially contribute to the study of women's leadership.

women s leadership event: Communicative Understandings of Women's Leadership

Development Elesha L. Ruminski, Annette Holba, 2012-01-01 *Communicative Understandings of Women's Leadership Development: From Ceilings of Glass to Labyrinth Paths*, edited by Elesha L. Ruminski and Annette M. Holba, intertwines the disciplines of communication studies, leadership studies, and women's studies to offer theoretical and practical reflection about women's leadership development in academic, organizational, and political contexts. Women's leadership development exists at the intersection of consciousness-raising, communication competence, and education to increase one's knowledge and practice of leadership, which makes the weaving together of these three disciplines important. Thus, *Communicative Understandings of Women's Leadership Development* claims a space for women's leadership studies and acknowledges the paradigmatic shift from discussing women's leadership using the glass ceiling phenomenon to what Eagly and Carli (2007) identify as the labyrinth of leadership. Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern flux of organizational change; hierarchical, top-down systems are being eroded in lieu of transformational, collaborative, even improvisational leadership processes. Women's leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live, work, and learn within a third-wave feminist or post-feminist context. While this area might include feminist theorizing, it also might not emphasize such epistemologies. For this reason, Ruminski and Holba's edited collection explores and highlights a variety of feminist and non-feminist intersections, and is thus an important and timely contribution to both marking where we are with women's leadership development in higher education and how women can further develop themselves as leaders.

women s leadership event: Women's Colleges and Universities in a Global Context Kristen A.

Renn, 2014-10-13 A pathbreaking study of the critical role women's institutions play in global higher education. Educating girls and women is a powerful route to improving societies worldwide. When women receive more education, literacy rates in children rise, maternal and infant death rates drop, and women enjoy an increased earning capacity. Yet in parts of the developing world, women's education is considered a low priority at best and a dangerous countercultural activity at worst. In Europe and North America, the number of women's colleges is shrinking—yet women-only institutions are growing in size and number in many other regions of the world, where they provide access to female students who are prevented for legal, cultural, religious, or practical reasons from attending coeducational universities. *Women's Colleges and Universities in a Global Context* is the first book to provide a comprehensive comparative analysis of the increasing significance of single-sex higher education institutions for women around the world. Based on Kristen A. Renn's on-site study of thirteen women's colleges and universities in ten different countries—Australia, Canada, China, India, Italy, Japan, Kenya, South Korea, the United Arab Emirates, and the United Kingdom—this timely and provocative volume combines interviews of campus leaders, faculty, and students with extensive online and archival research. Renn provides an overview of each country's political, economic, and educational situation, then explores the theoretical and practical themes she uncovers in their educational institutions for women. In the end, this volume addresses not only the role of women's colleges in their own countries but also what these institutions can teach us that would benefit higher education worldwide.

Barbara Cozza, Ceceilia Parnter, 2022-02-24 This book assists aspiring and current women leaders on how to advance into higher education leadership roles. Drawn from research and the lived experiences of women and non-binary people in higher education leadership, this book serves as a

guide in understanding the gender disparity in higher education leadership and how women leaders forge pathways to promotion and success through systemic barriers, obstacles, and a lack of representation. A critical review of traditional leadership theory offers an opportunity to reimagine how effective leadership is framed and valued in higher education. Chapter authors and case studies explore the intersections of multiple identities and their impacts on leadership through lenses, including institutional type, functional areas, ability, gender identity, sexuality, race, and ethnicity. Focusing on a bridge from theory to practice that is designed to empower and inspire women leaders at all levels of the spectrum, this book is ideal reading for higher education scholars, students, and faculty aspiring to become leaders.

women s leadership event: *Women as Imams* Simonetta Calderini, 2020-12-10 There is a long and rich history of opinion centred on female prayer leadership in Islam that has occupied the minds of theologians and jurists alike. It includes outright prohibition, dislike, permissibility under certain conditions and, although rarely, unrestricted sanction, or even endorsement. This book discusses debates drawn from scholars of the formative period of Islam who engaged with the issue of female prayer leadership. Simonetta Calderini critically analyses their arguments, puts them into their historical context, and, for the first time, tracks down how they have informed current views on female imama (prayer leadership). In presenting the variety of opinions discussed in the past by Sunni and Shi'i scholars, and some of the Sufis among them, the book uncovers how they are, at present, being used selectively, depending on modern agendas and biases. It also reviews the roles and types of authority of current women imams in diverse contexts spanning from Asia, Africa and Europe to America. The research offers readers the opportunity to gain nuanced answers to the question of female imama today that may lead to informed discussions and to change, if not necessarily in practices then at the very least in attitudes. This ground-breaking book interrogates the cases of women who are reported to have led prayer in the past. It then analyses the voices of current women imams, many of whom engage with those women of the past to validate their own roles in the present and so pave the way for the future.

women s leadership event: *Women as Leaders in Education* Jennifer L. Martin, 2011-09-22 This up-to-date, candid examination of women's careers in education and leadership in education describes the pitfalls, triumphs, and future promise of female leaders in education. Overall, education is a field still dominated by women, yet women do not typically pursue or attain leadership positions at the administrative level. Research has revealed some of the reasons for this: women still experience gender discrimination in education careers, experience higher attrition rates, and have slower career mobility than do men. Additionally, women in education are apparently less valued, and their performance is more critically evaluated, as in other fields. This insightful text shows the gender-based inequities and discrimination women face when aiming for leadership positions in education, and lays out a plan to bring success to this level of the field that is still male-dominated. *Women as Leaders in Education: Succeeding Despite Inequity, Discrimination, and Other Challenges* is the result of a team of leading feminist educators and scholars. It delves into feminist women's leadership in education from kindergarten to graduate school. This two-volume work assesses the historical and current political landscape with regard to women hitting a glass ceiling, issues of social justice, and the unique challenges women face in educational leadership as well as the new field of teacher leadership.

women s leadership event: *Finding Your Path as a Woman in School Leadership* Kim Cofino, Christina Botbyl, 2023-12-22 Featuring the experiences of over 70 successful female leaders in international, public, and private schools around the world, *Finding Your Path as a Woman in School Leadership* brings together interconnected stories about the realities of being a woman in K-12 school leadership today. Women face distinct and unique challenges in pursuing a leadership pathway in schools; unfortunately, most of the obstacles facing women are hidden and only become visible when encountered on the journey to leadership. This book uncovers these invisible obstacles and shares the personal journeys of real women who have overcome them. Chapters feature powerful stories woven together to provide takeaway strategies and address common themes for women in leadership, including unconscious bias and daily microaggressions; physical, linguistic, and cultural expectations of leaders; perception (or reality) of lack of opportunities for women; impostor syndrome and double standards; and availability of mentorship and guidance. This impactful book provides actionable steps for both aspiring leaders and established leaders ready to support growing leaders in their school communities.
